## **FISCAL ANALYSIS**

---

### **ASSUMPTION**

Officials from the **Office of State Courts Administrator** assume no fiscal impact to their agency.

The **Joint Committee on Public Employee Retirement (JCPER)** has reviewed this proposal and has determined an actuarial study is not needed under the provisions of section 105.660, subdivision (5). It should be noted, however, that provisions contained in this proposal will increase the MOSERS Unfunded Actuarial Accrued Liabilities (UAAL) and will result in an increase of annual employer contributions.

Officials with the **Missouri State Employees Retirement System (MOSERS)** assume the proposal if enacted, treat:

Single county service as follows:

- All multi-county grant service would be included in the definition of juvenile court employee.
- Juvenile officers covered by MOSERS in single county circuits would become eligible to receive prior service credit for all multi-county grant service after July 1999.
- Juvenile court employees covered by MOSERS in multi-county circuits would become eligible to receive prior service credit for all multi-county grant service after July 1999.
- Any MOSERS member who has multi-county grant service as a juvenile court employee after July 1999 would become eligible to receive prior service credit.
- Juvenile officers covered by MOSERS in single county circuits would receive creditable prior service for single county service prior to July 1999.

All of the above provisions would apply retroactively to terminated-vested members and retirees and allows for refunds if service was purchased in MOSERS.

MOSERS is unable to determine the costs associated with this proposal since we have no way of determining those members who may have multi-county grant service after July 1999 or creditable prior service in single and multi-counties prior to July 1999.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

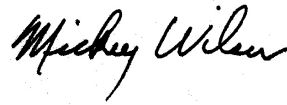

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact. However, the proposal will increase the Missouri State Employees Retirement System Unfunded Actuarial Liability (UAAL) and will result in an increase of annual employer contributions.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
