FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety - Director's Office, Office of the Adjutant General** and the **State Emergency Management Agency** each assume the proposal will not fiscally impact their respective agencies.

In response to a previous version of this proposal, officials from the **Department of Labor and Industrial Relations** assumed the proposal will not fiscally impact their agency.

Officials from the **Office of the State Courts Administrator** assume the proposal will not fiscally impact the courts.

Officials from the **Office of Administration - General Services /Risk Management** state the Civil Air Patrol may be used to support the Missouri National Guard and other state agencies. When the Patrol is performing a state mission that is not federally funded, members of the Patrol shall be considered state employees for purposes of tort claims under Chapter 537, RSMo and for purposes of workers' compensation. This has potential for costs to the state legal expense fund and to the state's self-insured workers' compensation program that cannot be determined at this time.

The state self-assumes its own liability protection under the State Legal Expense Fund, Section 105.711, RSMo. It is a self-funding mechanism whereby funds are made available for the payment of any claim or judgment rendered against the state in regard to the waivers of sovereign immunity or against employees and specified individuals. Investigation, defense, negotiation or settlement of such claims is provided by the Office of the Attorney General. Payment is made by the Commissioner of Administration with the approval of the Attorney General.

Oversight assumes the potential liability as described by the Office of Administration would be an indirect impact of the legislation and therefore have not included it in the fiscal note.
