FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the State Courts Administrator** and the **Parkway Public Schools** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Mexico Public Schools** assume the fiscal impact of this proposal is reasonable. The significance of the impact will vary for districts depending on the number of students effected but generally there should be no significant impact.

Officials from the **Department of Elementary and Secondary Education** assume the provisions of this proposal might result in an increase in the Average Daily Attendance (ADA) and weighted ADA of a district and that increases cost, but there is no way to estimate such growth. Therefore, the cost is unknown.

Oversight assumes through discussions with the Division of Youth Services (DYS) that educational costs are already occurring between DYS, residential care facilities and local school districts.

Officials from the **Department of Social Services - Division of Youth Services** assume that all existing contracts include provisions for full time education services provided by certificated teachers, thus no additional costs are anticipated.

Officials from the **Department of Social Services - Children's Division** does not anticipate a fiscal or programmatic impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

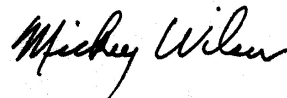

FISCAL DESCRIPTION

This legislation requires the Department of Social Services to provide for the educational needs of children placed in licensed residential care facilities at either an on-site school or a public school. Facilities and local school districts will be compensated for the educational services provided. The educational needs of the children in residential care facilities is specified as six hours for each regular school day spent under the guidance and direction of a teacher in an educational process.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
