

HB 105 -- Temperature-Adjusted Gasoline and Diesel Fuel

Sponsor: Meiners

This bill requires that all gasoline and diesel fuel sold at retail be measured by the temperature-adjusted gallon. The Department of Agriculture must define the size of a temperature-adjusted gallon of gasoline and diesel fuel for each district in the state. The criteria to determine the size of a temperature-adjusted gallon is specified in the bill as well as the counties comprising each district.

The department will:

- (1) Promulgate rules to implement this provision no later than January 1, 2008;
- (2) Require each retail gasoline and diesel fuel pump in the state to measure in temperature-adjusted gallons no later than December 31, 2008; and
- (3) Inspect each retail gasoline and diesel fuel pump to ensure compliance no later than December 31, 2008.
