

HB 1069 -- Energy Conservation

Sponsor: Baker (25)

This bill requires that all state buildings meet the International Energy Conservation Code by July 1, 2009. State agencies must reduce their energy use by 15% by July 1, 2012, and must purchase lowest lifecycle cost equipment. The Department of Natural Resources may provide free conservation training to individuals receiving utility assistance and education and assistance to municipalities, cooperatives, utilities, and community groups concerning weatherization and conservation.
