

HB 1226 -- On-Line Course Graduation Requirement

Sponsor: Cunningham (86)

This bill requires an on-line learning experience for high school graduation, beginning with the 2011-2012 school year. An on-line learning experience will be a structured learning activity that uses the Internet or Internet-based tools and resources for research, instruction, assessment, and communication. The requirement can be met by taking an on-line course for at least one semester or by spending at least 24 hours of time on-line while participating in an on-line learning experience incorporated into a required course for graduation.
