

HB 1234 -- St. Louis Students' Bill of Rights

Sponsor: Vogt

Currently, the St. Louis Students' Bill of Rights becomes effective upon approval by the voters. This bill renames it the Metropolitan School District Students' Bill of Rights and removes the voter-approval requirement. The state is required to pay transportation savings to the school district as specified in the bill for reimbursement of the transition to a kindergarten through eighth grade system.

The bill contains an emergency clause.
