

## SB 352 -- EMERGENCY VEHICLES

Currently, drivers must yield the right-of-way upon the immediate approach of certain emergency vehicles with an audible siren or with at least one lighted lamp exhibiting red light visible under normal atmospheric conditions from a distance of 500 feet or a flashing blue light as authorized by Section 307.175, RSMo. This bill adds any vehicle operated by a conservation agent as an emergency vehicle for which drivers must yield the right-of-way.
