

SCS SB 456 -- PAYMENTS TO SCHOOL DISTRICTS

This bill requires the Department of Elementary and Secondary Education to pay a supplemental amount to any school district in a county that established a county municipal court after January 1, 2006, which causes a decrease in the amount the district receives from fines in the current year from the amount the district received in Fiscal Year 2005. Currently, this will only affect certain school districts in St. Charles County.
