FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Secretary of State (SOS)** provided the following response.

Many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Office of Administration, Division of Budget and Planning (BAP)** assume there would be no added cost to their organization as a result of this proposal.

This proposal would make changes to the taxation of manufactured homes. This proposal would have no impact on general revenues, but could impact the Blind Pension Fund. BAP defers to DSS for any such impacts.

To the extent this proposal could impact the foundation formula for schools, state expenditures could increase. BAP defers to DESE for any calculations of this impact.

This proposal would also make changes to sales taxes related to manufactured homes. This provision could impact general and total state revenues, state dedicated funds, and local revenues. BAP defers to the DOR for estimates of any such impact.

Officials from the **State Tax Commission** assume this proposal would have no fiscal impact to their organization.

Officials from the **Department of Elementary and Secondary Education** deferred to the Department of Revenue for an estimate of the fiscal impact of a previous version of this proposal.

ASSUMPTION (continued)

Officials from the **Department of Revenue (DOR)** assume that a previous version of this proposal would establish procedures for converting a manufactured home from personal property to real property and back again, and would require the director to issue a certificate of conversion for manufactured homes converted to real property, and would require the director to publish these in a file (presumably a website) available to lienholders.

DOR would need to:

- * Develop procedures and process an unknown number of applications for certificates of conversion on manufactured homes converted to real property; including entering the applications into a system, completing record searches, and deleting the title record.
- * If the manufactured home is converted back, a new title would be issued. Depending on the volume, DOR may require funding for overtime.
- * Develop an electronic system to issue the certificate of conversion (similar to a title) as well as a secure website accessible by password for lienholders that lists the pertinent information contained on the certificate of conversion, including owners, lienholders, unit description, etc.
- * Develop and maintain a website available to lienholders of conversion certificates that were issued.
- * Create a new reject code if an additional Notice of Lien is found.

DOR officials provided an estimate of the IT cost to implement the proposal.

The Office of Administration, Information Technology Services Division (ITSD/DOR) assumes this legislation could be implemented utilizing existing resources. However, if priorities shift additional FTE or overtime would be needed to implement. ITSD/DOR estimates the proposal could be implemented using two existing CIT III's for month for a total cost of approximately \$8,372.

ASSUMPTION (continued)

DOR did not provide an estimate of the cost to implement this proposal. In response to a similar proposal in the previous session (HB 855, LR 0145-01, 2007), DOR officials stated that their organization would intend to absorb any cost from this proposal with existing resources.

Oversight will use the DOR reponse from the previous session.

Officials from **Clinton County** assume this proposal could have some fiscal impact to their organization.

Officials from **Linn State Technical College**, the **Metropolitan Community Colleges, St. Louis County**, and the **City of Centralia** assume this proposal would have no fiscal impact to their organizations.

In response to a similar proposal in the previous session (HB 855, LR 0145-01, 2007), **Parkway School District**, the **Office of the Boone County Collector**, the **Office of the Cole County Assessor**, the **Office of the Grundy County Assessor**, and the **Office of the St. Louis County Assessor** assumed the proposal would have no fiscal impact to their organizations.

Oversight assumes this proposal would have no significant fiscal impact to the state or to local governments.

<u>FISCAL IMPACT - State Government</u>	FY 2009 (10 Mo.)	FY 2010	FY 2011
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
<u>FISCAL IMPACT - Local Government</u>	FY 2009 (10 Mo.)	FY 2010	FY 2011
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

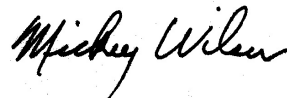

FISCAL DESCRIPTION

This proposal would allow for the conversion of manufactured homes from personal property to real property and the reconversion of manufactured homes from real property to personal property.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
