## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Department of Economic Development – Public Service Commission** and the **Office of the Secretary of State** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of the Attorney General** assume any potential costs arising from this proposal can be absorbed within existing resources.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Department of Corrections (DOC)** assume they cannot currently predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY07 average of \$41.21 per inmate per day, or an annual cost of \$15,040 per inmate) or through supervision provided by the Board of Probation and Parole (FY07 average of \$2.43 per offender per day, or an annual cost of \$887 per offender).

The following factors contribute to DOC's minimal assumption:

- DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence; and
- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

ASSUMPTION (continued)

Officials from the **Office of Prosecution Services (OPS)** are not aware of any estimates of the number of additional criminal cases that would be referred to county prosecutors for charges because of this proposed legislation. Additionally, the OPS is not otherwise able to establish a workable estimate of the number of additional criminal cases that would be referred to county prosecutors for charges, though it is not believed that a significant number of additional criminal case referrals would result from this proposed legislation. Therefore, OPS assumes any fiscal impact will not be significant for county prosecutors or the OPS.

**Oversight** assumes the Office of Prosecution Services and county prosecutors could absorb any additional costs incurred as a result of the proposed legislation within existing resources.

FISCAL IMPACT - Small Business

The proposed legislation could have a fiscal impact on small businesses that may misrepresent their geographic location by using a fictitious or assumed business name in a telephone directory or directory assistance database.

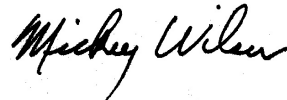

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
