FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of State Treasurer** assume the proposal will have no fiscal impact on their organization.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** state the proposal changes the definition of “security” as it is used in the laws regulating securities so that the sale of variable annuities will be regulation by the Secretary of State. The DIFP would lose the authority to review and monitor the sale of such contracts but retain the authority to regulate the issuance of contracts, reasonable rules, regulations and licensing requirements.

The proposal will have no fiscal impact to the DIFP.

Officials from the **Office of Secretary of State (SOS)** state the fiscal impact for this proposal for Administrative Rules is less than \$2,500. The SOS does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the SOS can sustain within its core budget. Therefore, the SOS reserves the right to request funding for the costs of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the Governor.

<u>FISCAL IMPACT - State Government</u>	FY 2009 (10 Mo.)	FY 2010	FY 2011

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

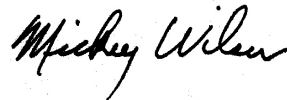

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
