FISCAL ANALYSIS

ASSUMPTION

According to officials from the **Department of Elementary and Secondary Education (DESE)**, this proposal will likely result in advertising costs and increased employee time for local school districts. DESE defers to the districts regarding total costs.

This proposal was sent to several school districts, none of which responded to a request for fiscal note. **Oversight** assumes any costs will be minimal and can be absorbed within existing resources.

The proposal also requires DESE to publish information on their Internet web site. This requirement will increase employee work time but will not likely result in significant additional costs. **Oversight** assumes these costs can be absorbed with existing resources.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
