11 death;

12 (c) While in the custody of the law, or while an inmate in a public institution;

13 (d) In any unusual or suspicious manner;

14

15 the police, sheriff, law enforcement officer or official, or any person having knowledge of such
16 a death shall immediately notify the office of the medical examiner of the known facts
17 concerning the time, place, manner and circumstances of the death.

18

19 Immediately upon receipt of notification, the medical examiner or [his] **the medical examiner's**
20 designated assistant shall take charge of the dead body and fully investigate the essential facts
21 concerning the medical causes of death. He **or she** may take the names and addresses of
22 witnesses to the death and shall file this information in [his] **the medical examiner's** office. The
23 medical examiner or [his] **the medical examiner's** designated assistant shall take possession of
24 all property of value found on the body, making exact inventory thereof on his **or her** report and
25 shall direct the return of such property to the person entitled to its custody or possession. The
26 medical examiner or [his] **the medical examiner's** designated assistant examiner shall take
27 possession of any object or article which, in [his] **the medical examiner's** opinion, may be
28 useful in establishing the cause of death, and deliver it to the prosecuting attorney of the county.

29 2. When a death occurs outside a licensed health care facility, the first licensed medical
30 professional or law enforcement official learning of such death shall contact the county medical
31 examiner. Immediately upon receipt of such notification, the medical examiner or the medical
32 examiner's deputy shall make a determination if further investigation is necessary, based on
33 information provided by the individual contacting the medical examiner, and immediately advise
34 such individual of the medical examiner's intentions.

38 requiring the body to be exhumed.

39 4. The medical examiner shall certify the cause of death in any case where death
40 occurred without medical attendance or where an attending physician refuses to sign a certificate

43 **examiner** shall file a copy of his **or her** findings in his office within thirty days after notification

45 6. When a person is being transferred from one county to another county for medical
46 treatment and such person dies while being transferred, the county from which the person is first
47 removed shall be considered the place of death and the medical examiner of the county from
48 which the person was being transferred shall be responsible for the certificate of death and for
49 investigating the cause and manner of the death. If the coroner or medical examiner in the
50 county in which the person died believes that further investigation is warranted and a postmortem
51 examination is needed, such coroner or medical examiner shall have the right to further
52 investigate and perform the postmortem examination at the expense of such coroner or medical
53 examiner and shall be responsible for the certificate of death and for investigating the cause and
54 manner of the death. Such coroner or medical examiner shall immediately notify the coroner
55 or medical examiner of the county from which the person was being transferred of the death of
56 such person and after an investigation is completed shall notify such coroner or medical
57 examiner of his **or her** findings. If a person does not die while being transferred and is
58 institutionalized after such transfer and subsequently dies while in such institution, the coroner
59 or medical examiner of the county in which the person dies shall immediately notify the coroner
60 or medical examiner of the county from which such person was transferred of the death of such
61 person. In such cases, the county in which the deceased was institutionalized shall be considered
62 the place of death.

63 7. Except as provided in subsection 6 of this section, if a person dies in one county and
64 [his] **the** body is subsequently transferred to another county, the county coroner or medical
65 examiner where the death occurred shall be responsible for the certificate of death and for
66 investigating the cause and manner of the death.

67 8. In performing his **or her** duties, the coroner or medical examiner shall [make
68 reasonable efforts to accommodate organ donation] **comply with sections 58.775 to 58.785 with**
69 **respect to organ donation.**

58.775. For the purpose of sections 58.775 to 58.785, the definitions in section
2 **194.210, RSMo, are applicable.**

58.780. 1. A coroner or medical examiner shall cooperate with a procurement
2 **organization to maximize the opportunity to recover anatomical gifts for the purpose of**
3 **transplantation, therapy, research, or education.**

4 **2. If a coroner or medical examiner receives notice from a procurement**
5 **organization that an anatomical gift may be available or was made with respect to a**
6 **decedent whose body is under the jurisdiction of the coroner or medical examiner and a**
7 **postmortem examination is going to be performed, unless the coroner or medical examiner**
8 **denies recovery in accordance with section 58.785, the coroner or medical examiner or**

9 designee shall conduct a postmortem examination of the body or the part in a manner and
10 within a time period compatible with its preservation for the purposes of the gift.

11 3. A part shall not be removed from the body of a decedent under the jurisdiction
12 of a coroner or medical examiner for transplantation, therapy, research, or education
13 unless the part is the subject of an anatomical gift. The body of a decedent under the
14 jurisdiction of the coroner or medical examiner shall not be delivered to a person for
15 research or education unless the body is the subject of an anatomical gift. This subsection
16 does not preclude a coroner or medical examiner from performing the medicolegal
17 investigation upon the body or parts of a decedent under the jurisdiction of the coroner or
18 medical examiner.

58.785. 1. Upon request of a procurement organization, a coroner or medical
2 examiner shall release to the procurement organization the name, contact information, and
3 available medical and social history of a decedent whose body is under the jurisdiction of
4 the coroner or medical examiner. If the decedent's body or part is medically suitable for
5 transplantation, therapy, research, or education, the coroner or medical examiner shall
6 release postmortem examination results to the procurement organization. The
7 procurement organization may make a subsequent disclosure of the postmortem
8 examination results or other information received from the corner or medical examiner
9 only if relevant to transplantation or therapy.

10 2. The coroner or medical examiner may conduct a medicolegal examination by
11 reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and
12 other information that any person possesses about a prospective donor or a donor whose
13 body is under the jurisdiction of the coroner or medical examiner which the coroner or
14 medical examiner determines may be relevant to the investigation.

15 3. A person that has any information requested by a coroner or medical examiner
16 under subsection 2 of this section shall provide that information as expeditiously as
17 possible to allow the coroner or medical examiner to conduct the medicolegal investigation
18 within a period compatible with the preservation of parts for purposes of transplantation,
19 therapy, research, or education.

20 4. If an anatomical gift has been or may be made of a part of a decedent whose
21 body is under the jurisdiction of the coroner or medical examiner and a postmortem
22 examination is not required, or the coroner or medical examiner determines that a
23 postmortem examination is required but that the recovery of the part that is the subject
24 of an anatomical gift will not interfere with the examination, the coroner or medical
25 examiner and procurement organization shall cooperate in the timely removal of the part
26 from the decedent for purposes of transplantation, therapy, research, or education.

27 **5. If an anatomical gift of a part from the decedent under the jurisdiction of the**
28 **coroner or medical examiner has been or may be made, but the coroner or medical**
29 **examiner initially believes that the recovery of the part could interfere with the**
30 **postmortem investigation into the decedent's cause or manner of death, the coroner or**
31 **medical examiner shall consult with the procurement organization or physician or**
32 **technician designated by the procurement organization about the proposed recovery. After**
33 **consultation, the coroner or medical examiner may allow recovery.**

34 **6. Following the consultation under subsection 5 of this section, in the absence of**
35 **mutually agreed upon protocols to resolve conflict between the coroner or medical**
36 **examiner and the procurement organization, if the coroner or medical examiner intends**
37 **to deny recovery, the coroner or medical examiner or his or her designee, at the request of**
38 **the procurement organization, shall attend the removal procedure for the part before**
39 **making a final determination not to allow the procurement organization to recover the**
40 **part. During the removal procedure, the coroner or medical examiner or his or her**
41 **designee may allow recovery by the procurement organization to proceed, or, if the coroner**
42 **or medical examiner or his or her designee reasonably believes that the part may be**
43 **involved in determining the decedent's cause or manner of death, deny recovery by the**
44 **procurement organization.**

45 **7. If the coroner or medical examiner or his or her designee denies recovery under**
46 **subsection 6 of this section, the coroner or medical examiner or his or her designee shall:**

47 **(1) Explain in a record the specific reasons for not allowing recovery of the part;**

48 **(2) Include the specific reasons in the records of the coroner or medical examiner;**

49 **and**

50 **(3) Provide a record with the specific reasons to the procurement organization.**

51 **8. If the coroner or medical examiner or his or her designee allows recovery of a**
52 **part under subsection 4, 5, or 6 of this section, the procurement organization shall, upon**
53 **request, cause the physician or technician who removes the part to provide the coroner or**
54 **medical examiner with a record describing the condition of the part, a biopsy, photograph,**
55 **and any other information and observations that would assist in the postmortem**
56 **examination.**

57 **9. If a coroner or medical examiner or his or her designee is required to be present**
58 **at a removal procedure under subsection 6 of this section, the procurement organization**
59 **requesting the recovery of the part shall, upon request, reimburse the coroner or medical**
60 **examiner or his or her designee for the additional costs incurred in complying with**
61 **subsection 6 of this section.**

31 **any form of communication during a terminal illness or injury addressed to at least two**
32 **adults at least one of whom is a disinterested witness.**

33 **5. A donor who makes an anatomical gift in a will may amend or revoke the gift in**
34 **the manner provided for amendment or revocation of wills or as provided in subsection 1**
35 **of this section.**

194.235. 1. An individual may refuse to make an anatomical gift of the individual's
2 **body or part by:**

3 **(1) A record signed by:**

4 (a) The individual; or

5 (b) Subject to subsection 2 of this section, another individual acting at the direction
6 of the individual if the individual is physically unable to sign;

7 (2) The individual's will whether or not the will is admitted to probate or
8 invalidated after the individual's death; or

9 (3) Any form of communication made by the individual during the individual's
10 terminal illness or injury addressed to at least two adults at least one of whom is a
11 disinterested witness.

12 2. A record signed under paragraph (b) of subdivision (1) of subsection 1 of this
13 section shall:

14 (1) Be witnessed by at least two adults at least one of whom is a disinterested
15 witness, who have signed at the request of the individual; and

16 (2) State that it has been signed and witnessed as provided in subdivision (1) of
17 subsection 2 of this section.

18 3. An individual may amend or revoke a refusal:

19 (1) In the manner provided in subsection 1 of this section for making a refusal;

20 (2) By subsequently making an anatomical gift under section 194.225 that is
21 inconsistent with the refusal; or

22 (3) By the destroying or cancelling of the record evidencing the refusal, or the
23 portion of the record used to make the refusal, with the intent to revoke the refusal.

24 4. Except as otherwise provided in subsection 8 of section 194.240, in the absence
25 of an express, contrary indication by the individual set forth in the refusal, an individual's
26 unrevoked refusal to make an anatomical gift of the individual's body or a part bars all
27 other persons from making an anatomical gift of the individual's body or the part.

194.240. 1. [A gift of all or part of the body under subsection 1 of section 194.220 may
2 be made by will. The gift becomes effective upon the death of the testator without waiting for
3 probate. If the will is not probated, or if it is declared invalid for testamentary purposes, the gift,
4 to the extent that it has been acted upon in good faith, is nevertheless valid and effective.

5 2. A gift of all or part of the body under subsection 1 of section 194.220 may also be
6 made by document other than a will. The gift becomes effective upon the death of the donor.
7 The document, which may be a card designed to be carried on the person, must be signed by the
8 donor in the presence of two witnesses who must sign the document in his presence or before
9 a notary or other official authorized to administer oaths generally. If the donor cannot sign, the
10 document may be signed for him at his direction and in his presence in the presence of two
11 witnesses who must sign the document in his presence. Delivery of the document of gift during
12 the donor's lifetime is not necessary to make the gift valid.

13 3. The gift may be made to a specified donee or without specifying a donee. If the latter,
14 the gift may be accepted by a physician as donee upon or following death. If the gift is made to
15 a specified donee who is not available at the time and place of death or if the gift cannot be
16 implemented, a physician upon or following death, in the absence of any expressed indication
17 that the donor desired otherwise, may accept the gift as donee. The physician who becomes a
18 donee under this subsection shall not participate in the procedures for removing or transplanting
19 a part.

20 4. Notwithstanding the provisions of subsection 2 of section 194.270, the donor may
21 designate in his will, card, or other document of gift the surgeon or physician to carry out the
22 appropriate procedures. In the absence of a designation or if the designee is not available, the
23 donee or other person authorized to accept the gift may employ or authorize any surgeon or
24 physician to carry out the appropriate procedures. For the purpose of removing an eye or part
25 thereof, any medical technician employed by a hospital, physician or eye bank and acting under
26 supervision may perform the appropriate procedures. Any medical technician authorized to
27 perform such procedure shall successfully complete the course prescribed in section 194.295 for
28 embalmers.

29 5. Any gift by a person designated in subsection 2 of section 194.220 shall be made by
30 a document signed by him or made by his telegraphic, recorded telephonic, or other recorded
31 message.

32 6. A gift of part of the body under subsection 1 of section 194.220 may also be made by
33 a statement on a form which shall be provided on the reverse side of all Missouri motor vehicle
34 licenses issued pursuant to chapter 302, RSMo. The statement to be effective shall be signed by
35 the owner of the license in the presence of two witnesses, who shall sign the statement in the
36 presence of the donor. Use of the form is prima facie evidence that the owner of the license
37 intended to make the anatomical gift, and there shall be no civil or criminal liability for removal
38 of any part of the body indicated on the form by a licensed physician or surgeon. The gift
39 becomes effective upon the death of the donor. Delivery of the license during the donor's
40 lifetime is not necessary to make the gift valid. The gift shall become invalidated upon
41 expiration, cancellation, revocation, or suspension of the license, and the gift must be renewed
42 upon renewal of each license. Pertinent medical information which may affect the quality of the
43 gift may be included in the statement of gift.

44 7. Any person eighteen years of age or older, or any person under the age of eighteen
45 with parental consent who indicates the desire to make an organ donation through any method
46 prescribed in this section may also contact the department of health and senior services when
47 completing such form, so that the information may be included in the registry maintained by the

48 department pursuant to subsection 1 of section 194.304. Failure to contact the department of
49 health and senior services shall not be construed to challenge the validity of the organ donation.

50 8. Organ procurement organizations and tissue banks may employ coordinators to assist
51 in the procurement of cadaveric organs and tissue for transplant or research. A coordinator who
52 assists in the procurement of cadaveric organs or tissue for transplantation or research must do
53 so under the direction and supervision of a physician or surgeon. With the exception of organ
54 procurement surgery, this supervision may be indirect supervision. For purposes of this
55 subsection, the term "indirect supervision" means that a physician or surgeon is responsible for
56 the medical actions of the coordinator, that the coordinator is acting under protocols expressly
57 approved by a physician or surgeon, and that a physician or surgeon is available, in person or by
58 telephone, to provide medical direction, consultation and advice in cases of organ and tissue
59 donation and procurement.

60 9. The department of health and senior services shall collect information and publish an
61 annual report which shall include the number of organ and tissue donations made in the state,
62 the number of organ or tissue donations received by citizens of the state of Missouri, the number
63 of organ or tissue donations transported outside the state boundaries and the cost of such organ
64 or tissue donations.] **Except as otherwise provided in subsection 7 of this section and subject**
65 **to subsection 6 of this section, in the absence of an express, contrary indication by the**
66 **donor, a person other than the donor is barred from making, amending, or revoking an**
67 **anatomical gift of a donor's body or a part if the donor made an anatomical gift of the**
68 **donor's body or the part under section 194.225 or an amendment to an anatomical gift of**
69 **the donor's body or the part under section 194.230.**

70 2. **A donor's revocation of an anatomical gift of the donor's body or a part under**
71 **section 194.230 is not a refusal and does not bar another person specified in section 194.220**
72 **or 194.245 from making an anatomical gift of the donor's body or a part under section**
73 **194.225 or 194.250.**

74 3. **If a person other than the donor makes an unrevoked anatomical gift of the**
75 **donor's body or part under section 194.225 or an amendment to an anatomical gift of the**
76 **donor's body or part under section 194.230, another person may not make, amend, or**
77 **revoke the gift of the donor's body or part under section 194.250.**

78 4. **A revocation of an anatomical gift of the donor's body or a part under section**
79 **194.230 by a person other than the donor does not bar another person from making an**
80 **anatomical gift of the body or a part under section 194.225 or 194.250.**

81 5. **In the absence of an express, contrary indication by the donor or other person**
82 **authorized to make an anatomical gift under section 194.220, an anatomical gift of a part**

83 is neither a refusal to give another part nor a limitation on the making of an anatomical
84 gift of another part at a later time by the donor or another person made by a person.

85 6. In the absence of an express, contrary indication by the donor or other person
86 authorized to make an anatomical gift under section 194.220, an anatomical gift of a part
87 for one or more purposes set forth in section 194.220 is not a limitation on the making of
88 an anatomical gift of the part for any other purpose by the donor or other person under
89 section 194.225 or 194.250.

90 7. If a donor who is an unemancipated minor dies, a parent of the donor who is
91 reasonably available may revoke or amend an anatomical gift of the donor's body or part.

92 8. If an unemancipated minor who signed a refusal dies, a parent of the minor who
93 is reasonably available may revoke the minor's refusal.

 194.245. 1. Subject to subsections 2 and 3 of this section and unless barred by
2 section 194.235 or 194.240, an anatomical gift of a decedent's body or part for purposes of
3 transplantation, therapy, research, or education may be made by any member of the
4 following classes of persons who is reasonably available, in the order of priority listed:

5 (1) An agent of the decedent at the time of death who could have made an
6 anatomical gift under subdivision (2) of section 194.220 immediately before the decedent's
7 death;

8 (2) The spouse of the decedent;

9 (3) Adult children of the decedent;

10 (4) Parents of the decedent;

11 (5) Adult siblings of the decedent;

12 (6) Adult grandchildren of the decedent;

13 (7) Grandparents of the decedent;

14 (8) The persons who were acting as the guardian of the person of the decedent at
15 the time of death; and

17 2. If there is more than one member of a class listed in subdivisions (1) to (8) of
18 subsection 1 of this section entitled to make an anatomical gift, an anatomical gift may be
19 made by a member of the class unless that member or a person to which the gift can pass
20 under section 194.255 knows of an objection by another member of the class. If an
21 objection is known, the gift may be made only by a majority of the members of the class
22 who are reasonably available.

23 3. A person may not make an anatomical gift if, at the time of the decedent's death,
24 a person in a prior class under subsection 1 of this section is reasonably available to make
25 or to object to the making of an anatomical gift.

194.250. [If the gift is made by the donor to a specified donee, the will, card, or other document, or an executed copy thereof, may be delivered to the donee to expedite the appropriate procedures immediately after death. Delivery is not necessary to the validity of the gift. The will, card, or other document, or an executed copy thereof, may be deposited in any hospital, bank or storage facility or registry office that accepts it for safekeeping or for facilitation of procedures after death. On request of any interested party upon or after the donor's death, the person in possession shall produce the document for examination.] **1. A person authorized to make an anatomical gift under section 194.245 may make an anatomical gift by a document of gift signed by the person making the gift or that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.**

2. Subject to subsection 3 of this section, an anatomical gift by a person authorized under section 194.245 may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized under section 194.245 may be:

(1) Amended only if a majority of reasonably available members agree to the revoking of the gift; or

(2) Revoked only if a majority of the reasonably available members agree to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

3. A revocation under subsection 2 of this section is effective only if, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

194.255. 1. An anatomical gift of a body or part may be made to the following persons:

(1) A hospital, accredited medical school, dental school, college, university, or organ procurement organization, or other appropriate person for research or education;

(2) Subject to subsection 2 of this section, an individual designated by the person making the anatomical gift if the individual is the recipient of the part; or

(3) A named eye bank or tissue bank.

2. If an anatomical gift to an individual under subdivision (2) of subsection 1 of this section cannot be transplanted into the individual, the part passes in accordance with subsection 7 of this section in the absence of an express, contrary indication by the person making the anatomical gift.

12 **3. If an anatomical gift of one or more specific parts or of all parts is made in a**
13 **document of gift that does not name a person described in subsection 1 of this section but**
14 **identifies the purpose for which an anatomical gift may be used, the following rules apply:**

15 **(1) If the part is an eye and the gift is for the purpose of transplantation or therapy,**
16 **the gift passes to the appropriate eye bank;**

17 **(2) If the part is tissue and the gift is for the purpose of transplantation or therapy,**
18 **the gift passes to the appropriate tissue bank;**

20 **therapy, the gift passes to the appropriate organ procurement organization as custodian**
21 **of the organ;**

22 **(4) If the part is an organ, an eye, or tissue and the gift is for the purpose of**
23 **research or education, the gift passes to the appropriate procurement organization.**

24 **4. For the purpose of subsection 3 of this section, if there is more than one purpose**
25 **of an anatomical gift set forth in the document of gift but the purposes are not set forth in**
26 **any priority, the gift must be used for transplantation or therapy if suitable. If the gift**
27 **cannot be used for transplantation or therapy, the gift may be used for research or**
28 **education.**

29 **5. If an anatomical gift of one or more specific parts is made in a document of gift**
30 **that does not name a person described in subsection 1 of this section and does not identify**
31 **the purpose of the gift, the gift may be used only for transplantation or therapy, and the**
32 **gift passes in accordance with subsection 7 of this section.**

33 **6. If a document of gift specifies only a general intent to make an anatomical gift**
34 **by words such as "donor", "organ donor", or "body donor", or by a symbol or statement**
35 **of similar import, the gift may be used only for transplantation or therapy, and the gift**

40 **(3) If the part is an organ, the gift passes to the appropriate organ procurement**
41 **organization as custodian of the organ.**

42 **8. An anatomical gift of an organ for transplantation or therapy, other than an**
43 **anatomical gift under subdivision (2) of subsection 1 of this section, passes to the organ**
44 **procurement organization as custodian of the organ.**

45 **9. If an anatomical gift does not pass under subsections 1 through 8 of this section**
46 **or the decedent's body or part is not used for transplantation, therapy, research, or**

47 education, custody of the body or part passes to the person under obligation to dispose of
48 the body or part.

49 **10. A person may not accept an anatomical gift if the person knows that the gift was**
50 **not effectively made under section 194.225 or 194.250 or if the person knows that the**
51 **decedent made a refusal under section 194.235 that was not revoked. For purposes of this**
52 **subsection, if a person knows that an anatomical gift was made on a document of gift, the**
53 **person is deemed to know of any amendment or revocation of the gift or any refusal to**
54 **make an anatomical gift on the same document of gift.**

55 **11. Except as otherwise provided in subdivision (2) of subsection 1 of this section,**
56 **nothing in this act affects the allocation of organs for transplantation or therapy.**

194.260. 1. [If the will, card, or other document or executed copy thereof, has been
2 delivered to a specified donee, the donor may amend or revoke the gift by:

4 (2) An oral statement made in the presence of two persons and communicated to the
5 donee, or

6 (3) A statement during a terminal illness or injury addressed to an attending physician
7 and communicated to the donee, or

8 (4) A signed card or document found on his person or in his effects.

10 the donor in the manner set out in subsection 1, or by destruction, cancellation, or mutilation of
11 the document and all executed copies thereof.

12 3. Any gift made by a will may also be amended or revoked in the manner provided for
13 amendment or revocation of wills, or as provided in subsection 1.] **The following persons shall**
14 **make a reasonable search of an individual who the person reasonably believes is dead or**
15 **near death for a document of gift or other information identifying the individual as a donor**
16 **or as an individual who made a refusal:**

17 (1) A law enforcement officer, firefighter, paramedic, or other emergency rescuer
18 finding the individual; and

19 (2) If no other source of the information is immediately available, a hospital, as
20 soon as practical after the individual's arrival at the hospital.

21 2. If a document of gift or a refusal to make an anatomical gift is located by the
22 search required by subdivision (1) of subsection 1 of this section and the individual or
23 deceased individual to whom it relates is taken to a hospital, the person responsible for
24 conducting the search shall send the document of gift or refusal to the hospital.

25 3. A person is not subject to criminal or civil liability for failing to discharge the
26 duties imposed by this section but may be subject to administrative sanctions.

194.263. 1. A document of gift need not be delivered during the donor's lifetime to
2 be effective.

3 2. Upon or after an individual's death, a person in possession of a document of gift
4 or a refusal to make an anatomical gift with respect to the individual shall allow
5 examination and copying of the document of gift or refusal by a person authorized to make
6 or object to the making of an anatomical gift with respect to the individual or by a person
7 to which the gift could pass under section 194.255.

194.265. 1. When a hospital refers an individual at or near death to a procurement
2 organization, the organization shall make a reasonable search of any donor registry and
3 other applicable records that it knows exist for the geographical area in which the
4 individual resides to ascertain whether the individual has made an anatomical gift.

5 2. A procurement organization shall be allowed reasonable access to information
6 in the records of the department of health and senior services and department of revenue
7 to ascertain whether an individual at or near death is a donor.

8 3. When a hospital refers an individual at or near death to a procurement
9 organization, the organization may conduct any reasonable examination necessary to
10 ensure the medical suitability of a part that is or could be the subject of an anatomical gift
11 for transplantation, therapy, research, or education from a donor or a prospective donor.
12 During the examination period, measures necessary to ensure the medical suitability of the
13 part may not be withdrawn unless the hospital or procurement organization knows that
14 the individual expressed a contrary intent.

15 4. Unless prohibited by law other than sections 194.210 to 194.294, at any time after
16 a donor's death, the person to which a part passes under section 194.255 may conduct any
17 reasonable examination necessary to ensure the medical suitability of the body or part for
18 its intended purpose.

19 5. Unless prohibited by law other than sections 194.210 to 194.294, an examination
20 under subsection 3 or 4 of this section may include an examination of all medical records
21 of the donor or prospective donor.

22 6. Upon the death of a minor who was a donor or had signed a refusal, unless a
23 procurement organization knows the minor is emancipated, the procurement organization
24 shall conduct a reasonable search for the parents of the minor and provide the parents
25 with an opportunity to revoke or amend the anatomical gift or revoke a refusal.

26 7. Upon referral by a hospital under subsection 1 of this section, a procurement
27 organization shall make a reasonable search for any person listed in section 194.245 having
28 priority to make an anatomical gift on behalf of a prospective donor. If a procurement

29 organization receives information that an anatomical gift to any other person was made,
30 amended, or revoked, it shall promptly advise the other person of all relevant information.

31 **8. Subject to subsection 8 of section 194.255 and section 58.785, RSMo, the rights**
32 **of the person to which a part passes under section 194.255 are superior to rights of all**
33 **others with respect to the part. The person may accept or reject an anatomical gift in**
34 **whole or in part. Subject to the terms of the document of gift and this act, a person that**
35 **accepts an anatomical gift of an entire body may allow embalming or cremation and use**
36 **of remains in a funeral service. If the gift is of a part, the person to which the part passes**
37 **under section 194.255, upon the death of the donor and before embalming, burial, or**
38 **cremation, shall cause the part to be removed without unnecessary mutilation.**

39 **9. Neither the physician who attends the decedent at death nor the physician who**
40 **determines the time of the decedent's death may participate in the procedures for removing**
41 **or transplanting a part from the decedent.**

42 **10. A physician or technician may remove a donated part from the body of a donor**
43 **that the physician or technician is qualified to remove.**

194.270. [1. The donee may accept or reject the gift. If the donee accepts a gift of the
2 entire body, he may, subject to the terms of the gift, authorize embalming and the use of the body
3 in funeral services. If the gift is of a part of the body, the donee, upon the death of the donor and
4 prior to embalming, shall cause the part to be removed without unnecessary mutilation. After
5 removal of the part, custody of the remainder of the body vests in the surviving spouse, next of
6 kin, or other persons under obligation to dispose of the body.

7 2. The time of death shall be determined by a physician who tends the donor at his death,
8 or, if none, the physician who certifies the death. The physician shall not participate, directly or
9 indirectly, in the procedures for removing or transplanting a part or be a relative within the fourth
10 degree of consanguinity of any donee of a body or part thereof which is removed or transplanted.

11 3. A person who acts without negligence and in good faith in accord with the terms of
12 this act or with the anatomical gift laws of another state or a foreign country is not liable for
13 damages in any civil action or subject to prosecution in any criminal proceeding for his act.

14 4. The provisions of this act are subject to the laws of this state prescribing powers and
15 duties with respect to autopsies.] **Each hospital in this state shall enter into agreements or**
16 **affiliations with procurement organizations for coordination of procurement and use of**
17 **anatomical gifts.**

194.275. 1. Except as otherwise provided in subsection 2 of this section, a person
2 who for valuable consideration knowingly purchases or sells a part for transplantation or
3 therapy if removal of a part from an individual is intended to occur after the individual's

4 death commits a felony and upon conviction is subject to a fine not exceeding fifty
5 thousand dollars or imprisonment not exceeding five years, or both.

6 2. For purposes of this section, "valuable consideration" does not include the
7 reasonable payments associated with the removal, transportation, implantation,
8 processing, preservation, quality control, and storage of any part or a whole body.

194.280. [Sections 194.210 to 194.290 shall be so construed as to effectuate its general
2 purpose to make uniform the law of those states which enact it.] Any person that in order to
3 obtain a financial gain intentionally falsifies, forges, conceals, defaces, or obliterates a
4 document of gift, an amendment or revocation of a document of gift, or a refusal commits
5 a felony and upon conviction is subject to a fine not exceeding fifty thousand dollars or
6 imprisonment not exceeding five years, or both.

194.285. 1. A person who acts in accordance with sections 194.210 to 194.294 or
2 with the applicable anatomical gift laws of another state or attempts in good faith to do so
3 is not liable for the act in any civil, criminal, or administrative proceeding. A party
4 claiming another was negligent shall have the burden of proving the claimed negligence.

5 2. Neither the person making an anatomical gift nor the donor's estate is liable for
6 any injury or damage that results from the making or use of the gift.

7 3. In determining whether an anatomical gift has been made, amended, or revoked
8 under sections 194.210 to 194.294, a person may rely upon representations of individuals
9 listed in subdivisions (2) to (8) of subsection 1 of section 194.245 relating to the individual's
10 relationship to the donor or prospective donor unless the person knows that representation
11 is untrue.

194.290. [Sections 194.210 to 194.290 may be cited as the "Uniform Anatomical Gift
2 Act".] 1. As used in this section, the following terms mean:

3 (1) "Advance health-care directive", a power of attorney for health care or record
4 signed by a prospective donor containing the prospective donor's direction concerning a
5 health-care decision for the prospective donor;

6 (2) "Declaration", a record, including but not limited to a living will or do not
7 resuscitate order, signed by a prospective donor specifying the circumstances under which
8 a life support system may be withheld or withdrawn;

9 (3) "Health-care decision", any decision made regarding the health care of the
10 prospective donor.

11 2. If a prospective donor has a declaration or advance health-care directive and the
12 terms of the declaration or directive and the express or implied terms of a potential
13 anatomical gift are in conflict with regard to the administration of measures necessary to
14 ensure the medical suitability of a part for transplantation or therapy, the prospective

15 donor's attending physician and prospective donor shall confer to resolve the conflict. If
16 the prospective donor is incapable of resolving the conflict, an agent acting under the
17 prospective donor's declaration or directive or, if none or the agent is not reasonably
18 available, another person authorized by law to make health-care decisions on behalf of the
19 prospective donor shall act for the donor to resolve the conflict. The conflict must be
20 resolved as expeditiously as possible. Information relevant to the resolution of the conflict
21 may be obtained from the appropriate procurement organization and any other person
22 authorized to make an anatomical gift for the prospective donor under section 194.245.
23 Before the resolution of the conflict, measures necessary to insure the medical suitability
24 of an organ for transplantation or therapy may not be withheld or withdrawn from the
25 prospective donor, if withholding or withdrawing the measures is not contraindicated by
26 appropriate end-of-life care.

194.292. 1. A document of gift is valid if executed in accordance with:

- 2 (1) Sections 194.210 to 194.294;
 - 3 (2) The laws of the state or country where it was executed; or
