

HB 1316 -- Parental Rights

Sponsor: Davis

This bill declares that parents of an unemancipated child younger than 18 years of age have the right to make all decisions regarding their child's health care and education; however, parents will not be given the authority to require their child to have an abortion.

A parent or guardian who home schools or sends his or her child to a private school will be allowed reimbursement upon providing satisfactory evidence of the schooling costs up to the amount of the county property taxes he or she paid that would have been given to the school district.
