

HB 1509 -- Title Loans

Sponsor: Hughes

This bill limits the amount of interest a title lender can charge on loans to two times the average rate credit unions charge. Beginning January 1, 2009, the Director of the Division of Credit Unions within the Department of Insurance, Financial Institutions, and Professional Registration will determine the approximate average interest rate being charged by credit unions in the state and make the rate available to the public no less than each calendar quarter.
