

HB 1584 -- Air Conservation Commission Permit Fees

Sponsor: Loehner

This bill increases the laws regarding the collection of various Air Conservation Commission permit fees related to air quality. In its main provisions, the bill:

- (1) Increases from \$100 to \$200 the fee for approval of an operating permit for an air contaminant source;
- (2) Specifies that the fee for open burning and gasoline vapor recovery operating permits will be \$100;
- (3) Specifies that operating permits issued under 40 CFR Part 70 will be \$500;
- (4) Increases from \$100 to \$200 the filing fee for construction permits except for gasoline vapor recovery construction filing fees which will remain at \$100;
- (5) Increases the hourly charge for review of a construction permit application from not to exceed \$50 to not to exceed \$90;
- (6) Increases from \$5 to \$50 the fee for renewal of certificates issued by the commission to those engaged in various air quality activities; and
- (7) Requires any person undertaking a demolition project regulated under 40 CFR Part 61 to submit a \$100 fee for a notification and asbestos certification review. The fee is waived if a local air pollution control agency imposes a similar fee.
