

HB 1619 -- Pseudoephedrine Purchases

Sponsor: Jones (117)

Subject to appropriations, this bill requires the Department of Health and Senior Services to maintain a realtime electronic logbook to record pseudoephedrine purchases in the state. Any transaction record will be deleted two years from the date of entry, unless the record is being used in a criminal investigation or proceeding.

The bill specifies who is allowed access to the electronic logbook and that the information contained in the electronic logbook will remain confidential. Any person who commits the crime of unauthorized disclosure relating to confidential information collected by these provisions will be guilty of a class A misdemeanor.
