

SCS HCS HB 1690 -- TRANSMISSION OF INSURANCE-RELATED INFORMATION

This bill allows the Director of the Department of Insurance, Financial Institutions, and Professional Registration to establish rules for a web-based delivery method for insurers to submit required insurance-related filings. The filing of records and signatures must be carried out in a manner consistent with the federal Electronic Signatures in Global and National Commerce Act. Automobile insurers will be allowed to send renewal notices electronically as an alternative to sending the notices by first-class mail if the insured requests an electronic notice in writing. Policy cancellation notices cannot be sent electronically.
