

HB 2146 -- Noise Ordinances

Sponsor: Wilson (119)

This bill allows noncharter counties to adopt noise ordinances prohibiting amplified noise above a specified decibel level without the written permission of the county commission. The noise ordinances will not supersede immunities granted to firearm ranges, hunting preserves, or the lawful discharge of firearms. No first, second, third, or fourth classification county will be allowed to enact ordinances governing noises made by railroads, telecommunications companies, utilities, or agricultural operations.
