

HB 2155 -- Office of Public Counsel and the Missouri Public Service Commission

Sponsor: Harris (23)

Currently, the Department of Economic Development oversees the Office of Public Counsel. This bill transfers the powers, duties, and functions of the office to the Attorney General's Office.

Currently, the Missouri Public Service Commission is prohibited from discussing current cases that have been filed. The bill expands the prohibition to include communications about matters that can reasonably be foreseen as becoming an issue before the commission.
