

HB 2267 -- Illegal Conduct of Pharmacists or Other Health Care Professionals

Sponsor: LeVota

This bill requires a person who has reasonable cause to believe that the conduct of a pharmacist or other licensed health care professional is illegal and could cause death or serious physical injury to another person to immediately report or make a report to the federal Food and Drug Administration, the Board of Pharmacy, or any law enforcement organization. A person who knowingly fails to make a report of misconduct within a reasonable period of time will be guilty of a class A misdemeanor. An administrator who knowingly conceals any illegal conduct resulting in death or serious physical injury will be guilty of a class D felony.
