

HB 2312 -- Public Funding of Certain Election Campaigns

Sponsor: Holsman

This bill establishes a process for funding elections that allows candidates to voluntarily agree to campaign finance limitations in exchange for public funding. In its main provisions, the bill:

(1) Establishes reporting and other requirements in order for party and independent candidates to receive public funding for their election campaigns;

(2) Establishes limitations on private contributions to fund election campaigns for participating candidates. Specified amounts of seed money will be allowed during the exploratory period before candidates qualify for public funding;

(3) Requires the Missouri Ethics Commission to determine the amount of public funding available to participating candidates during primary or general elections based on the type of race and prior campaign expenditures. The procedures for granting a line of credit to candidates are specified in the bill;

(4) Requires nonparticipating candidates and those making independent campaign expenditures to file reports with the commission if their funding exceeds certain limits;

(5) Requires political parties to file quarterly reports with the commission using the same schedule as candidates after January 1 of an election year. This provision applies to all candidates and is not limited to expenditures on participating candidates;

(6) Limits the amount of contributions that participating candidates may receive from political parties;

(7) Limits donations to political parties to \$5,000 per year from individuals, committees, and other organizations. This provision applies to all candidates and is not limited to expenditures on participating candidates;

(8) Creates the Missouri Clean Election Fund to finance the election campaigns of candidates for Governor, state senator, and state representative and to pay the administrative and enforcement costs of the commission. The fund will receive moneys from excess contributions made during the qualifying period for public funding, general revenue allocations of \$2 million per year, tax checkoffs that are established by the bill beginning January 1, 2008, excess seed money contributions to

candidates, excess election funds, voluntary donations, and fines;

(9) Requires the State Treasurer to issue debit cards to candidates and requires candidates to use these cards to make campaign expenditures of public moneys;

(10) Imposes a civil penalty of up to 10 times the amount of an excess expenditure from public funds for candidates spending excess money. A candidate receiving excess campaign funds will also be liable for up to 10 times the amount of the excess funds received. Candidates who knowingly violate these provisions or who knowingly conceal information from the commission will be guilty of a class D felony and fined up to \$20,000 or five years in prison, or both;

(11) Establishes rules for mass mailings by participating candidates;

(12) Allows judicial review of all commission actions and decisions; and

(13) Specifies that these provisions apply to special and runoff elections with time lines established by the commission.

The bill contains a referendum clause.
