

HB 2314 -- Religious Objections to a Photograph on Driver's Licenses

Sponsor: Hobbs

This bill allows certain individuals who have religious objections to having their photograph taken and maintained by the Department of Revenue to receive a driver's license or nondriver's license without a photograph if the applicant:

- (1) Complies with existing requirements;
- (2) Submits a set of fingerprints and pays a fee for the cost of processing the prints; and
- (3) Presents evidence to the department director that he or she is exempt from paying Social Security and Medicare taxes because of his or her affiliation with a recognized religious group that existed continuously since December 31, 1950, conscientiously opposes accepting certain public and private insurance benefits, and provides a reasonable level of living for its dependent members.
