

HB 2330 -- Temporary Assistance Benefits for Needy Families

Sponsor: Brandom

This bill requires the Department of Social Services to develop a program to screen and test applicants for or recipients of the Temporary Assistance for Needy Families (TANF) Program benefits who the department has reasonable cause to believe, based on the screening, engages in the illegal use of controlled substances. Applicants or recipients who test positive for the use of a controlled substance after an administrative hearing will be declared ineligible for TANF benefits for three years beginning on the date of the administrative hearing decision. The department will refer individuals who tested positive to a substance abuse treatment program approved by the Division of Alcohol and Drug Abuse within the Department of Mental Health.
