

HB 2340 -- Domestic Violence

Sponsor: Corcoran

This bill revises the definitions of "domestic violence" and "family or household member" to include a person who is or has been in a continuing romantic or intimate relationship with the victim or adults having a child in common regardless of whether they have been married or lived together so that those terms are consistent with regard to all reported incidents of domestic violence in the Missouri Crime Index, domestic violence shelters, the reporting of homicides and suicides related to domestic violence, and domestic violence crimes.
