

HB 2462 -- Health Care Information Collection

Sponsor: McClanahan

This bill specifies that data or other information collected from health maintenance organizations and community-based health maintenance organizations by the Department of Health and Senior Services regarding quality of care, access to care, member satisfaction, and member health status that does not contain identifiable information will be considered public information.

Each board or commission established under the Division of Professional Registration within the Department of Economic Development is authorized to collect and analyze information needed to support workforce planning and policy development.
