

SCS SB 850 -- BOARD OF OPTOMETRY

This bill requires the Board of Optometry within the Department of Insurance, Financial Institutions, and Professional Registration to give 10 days' public notice of the time and place of its semi-annual meetings for the examination of applicants for registration and to transact other business. The board's president or vice president will have the authority to call additional meetings without the 10-day notice if sufficient notice is given to the other board members and the public in the same manner as required for a public meeting of governmental bodies.
