

HB 755 -- Posting of Calorie Content

Sponsor: Grill

This bill requires certain food service establishments to post the total number of calories for food items on their menus or menu boards, including drive-through menu boards. The provisions of the bill apply to menu items that are served in portions which have standardized size and content and excludes menu items that are listed for less than 30 days a year. Calorie content values must be based on a verifiable analysis of the menu item. For food items in multiple flavors and varieties or a combination of items pictured as a single menu item, a range of the minimum and maximum calorie content values can be posted.
