	HOUSE AMENDMENT NO
	Offered By
	AMEND House Committee Substitute for Senate Committee Substitute for Senate Bill No. 829,
	Page 6, Section 71.285, Line 80, by inserting after all of said line the following:
	"195.080. 1. Except as otherwise in sections 195.005 to 195.425 specifically provided,
	sections 195.005 to 195.425 shall not apply to the following cases: prescribing, administering,
(	dispensing or selling at retail of liniments, ointments, and other preparations that are susceptible
(	of external use only and that contain controlled substances in such combinations of drugs as to
1	prevent the drugs from being readily extracted from such liniments, ointments, or preparations,
	except that sections 195.005 to 195.425 shall apply to all liniments, ointments, and other
	preparations that contain coca leaves in any quantity or combination.
	2. The quantity of Schedule II controlled substances prescribed or dispensed at any one
	time shall be limited to a thirty-day supply. The quantity of Schedule III, IV or V controlled
1	substances prescribed or dispensed at any one time shall be limited to a ninety-day supply and
:	shall be prescribed and dispensed in compliance with the general provisions of sections 195.005
	to 195.425. The supply limitations provided in this subsection may be increased up to three
	months if the physician describes on the prescription form or indicates via telephone, fax, or
(	electronic communication to the pharmacy to be entered on or attached to the prescription form
	the medical reason for requiring the larger supply. The supply limitations provided in this
	subsection shall not apply if the prescription is dispensed directly to a member of the United
	States armed forces serving outside the United States.
	3. The partial filling of a prescription for a Schedule II substance is permissible as defined
	by regulation by the department of health and senior services."; and
	Further amend said bill, Page 13, Section 303.025, Line 40 by inserting after all of said line the
	following:
	"338.100. 1. Every permit holder of a licensed pharmacy shall cause to be kept in a
	uniform fashion consistent with this section a suitable book, file, or electronic record keeping
	Action Taken Date 1

records maintained over three years. The pharmacist in charge shall be responsible for complying with the permit holder's record-keeping system in compliance with this section. Records maintained by a pharmacy that contain medical or drug information on patients or their care shall be considered as confidential and shall only be released according to standards provided by the board. Upon request, the pharmacist in charge of such pharmacy shall furnish to the prescribe, and may furnish to the person for whom such prescription was compounded or dispensed, a true and correct copy of the original prescription. The file of original prescriptions in whatever format kept in compliance with this section, and other confidential records, as defined by law, shall at all times be open for inspection by board of pharmacy representatives. Records maintained in an electronic record keeping system shall contain all information otherwise required in a manual record keeping system. Electronic records shall be readily retrievable. Pharmacies may electronically maintain the original prescription or prescription order for each drug and may electronically annotate any change or alteration to a prescription record in the electronic record keeping system as authorized by law, provided however, original written and faxed prescriptions must be physically maintained on file at the pharmacy pursuant to state and federal controlled substance laws.  2. An institutional pharmacy located in a hospital shall be responsible for maintaining records of the transactions of the pharmacy as required by federal and state laws and as necessary to maintain adequate control and accountability of all drugs. This shall include a system of controls and records for the requisitioning and dispensing of pharmaceutical supplies where applicable to patients, nursing care units and to other departments or services of the institution.	1	<u>system</u> in which shall be preserved, for a period of not less than five years, the original or order of
any grand jury whenever lawfully required. A licensed pharmacy may maintain its prescription file on readable microfilm for records maintained over three years. After September, 1999, a licensed pharmacy may preserve prescription files on microfilm or by electronic media storage for records maintained over three years. The pharmacist in charge shall be responsible for complying with the permit holder's record-keeping system in compliance with this section. Records maintained by a pharmacy that contain medical or drug information on patients or their care shall be considered as confidential and shall only be released according to standards provided by the board. Upon request, the pharmacist in charge of such pharmacy shall furnish to the prescribe, and may furnish to the person for whom such prescription was compounded or dispensed, a true and correct copy of the original prescription. The file of original prescriptions in whatever format kept in compliance with this section, and other confidential records, as defined by law, shall at all times be open for inspection by board of pharmacy representatives. Records maintained in an electronic record keeping system shall contain all information otherwise required in a manual record keeping system. Electronic records shall be readily retrievable. Pharmacies may electronically maintain the original prescription or prescription order for each drug and may electronically maintain the original prescription or prescription record in the electronic record keeping system as authorized by law, provided however, original written and faxed prescriptions must be physically maintained on file at the pharmacy pursuant to state and federal controlled substance laws.  2. An institutional pharmacy located in a hospital shall be responsible for maintaining records of the transactions of the pharmacy as required by federal and state laws and as necessary to maintain adequate control and accountability of all drugs. This shall include a system of controls and records for the requisitio	2	each drug which has been compounded or dispensed at such pharmacy, according to and in
file on readable microfilm for records maintained over three years. After September, 1999, a licensed pharmacy may preserve prescription files on microfilm or by electronic media storage for records maintained over three years. The pharmacist in charge shall be responsible for complying with the permit holder's record-keeping system in compliance with this section. Records maintained by a pharmacy that contain medical or drug information on patients or their care shall be considered as confidential and shall only be released according to standards provided by the board. Upon request, the pharmacist in charge of such pharmacy shall furnish to the persoribe, and may furnish to the person for whom such prescription was compounded or dispensed, a true and correct copy of the original prescription. The file of original prescriptions in whatever format kept in compliance with this section, and other confidential records, as defined by law, shall at all times be open for inspection by board of pharmacy representatives. Records maintained in an electronic record keeping system shall contain all information otherwise required in a manual record keeping system. Electronic records shall be readily retrievable. Pharmacies may electronically maintain the original prescription or prescription order for each drug and may electronically annotate any change or alteration to a prescription record in the electronic record keeping system as authorized by law, provided however, original written and faxed prescriptions must be physically maintained on file at the pharmacy pursuant to state and federal controlled substance laws.  2. An institutional pharmacy located in a hospital shall be responsible for maintaining records of the transactions of the pharmacy as required by federal and state laws and as necessary to maintain adequate control and accountability of all drugs. This shall include a system of controls and records for the requisitioning and dispensing of pharmaceutical supplies where applicable to patients, nursing care un	3	compliance with standards provided by the board, and shall produce the same in court or before
licensed pharmacy may preserve prescription files on microfilm or by electronic media storage for records maintained over three years.
