## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Missouri Consolidated Health Care Plan, Department of Health and Senior Services** and the **Department of Insurance, Financial Institutions and Professional Registration** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Department of Labor and Industrial Relations** assume the proposal would have an unknown fiscal impact.

Officials from the **Department of Social Services - MO HealthNet Division** state the legislation defines a "Health care system", as any public or private entity whose function or purpose is the management of, processing of, enrollment of individuals for, or payment for, in full or in part, health care services or health care information for its participants. The resolution says this section shall not be construed to affect the terms or conditions of any health care system to the extent that those terms and conditions do not have the effect of punishing a person or employer for paying directly for lawful health care services or a health care provider or hospital for accepting direct payment from a person or employer for lawful health care services. If it is assumed MO HealthNet is considered a health care system then no terms or conditions of MO HealthNet would be affected. Therefore, there is no fiscal impact to the MO HealthNet Division of DSS.

Officials from the **Department of Social Services - Division of Legal Services** assume they will be able to comply with the bill with existing resources.

Officials from the **Department of Social Services - Family Support Division** state at this time there is no fiscal impact to their divisions; however, if federal health care reform legislation would be passed, it is unknown whether or not this bill would result in a fiscal impact.

Officials at the **Office of the Secretary of State (SOS)** assume unless a special election is called for the purpose, Joint Resolutions are submitted to a vote of the people at the next general election. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people and Article XII section 2(b) authorizes the governor to call a special election to submit constitutional amendments to a vote of the people.

ASSUMPTION (continued)

The SOS is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article I, Section 26, 27, 28 of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.3 million historically appropriated in odd numbered fiscal years and \$100,000 appropriated in even numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2009, at the August and November elections, there were 5 statewide Constitutional Amendments or ballot propositions that cost \$1.35 million to publish (an average of \$270,000 per issue). Therefore, the Secretary of State's office assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

**Oversight** has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2011. This reflects the decision made by the Joint Committee on Legislative Research, that the cost of the elections should be shown in the fiscal note. The next scheduled general election is in November 2010 (FY 2011). It is assumed the subject within this proposal could be on that ballot; however, it could also be on a special election called for by the Governor. Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2011.

To estimate the expense the state would incur for reimbursing local political subdivisions for a special election, Oversight requested expense estimates from all election authorities for an election. Eighty-six out of the one hundred fifteen election authorities responded to Oversight's request. From these respondents; the total election expense that would have to be reimbursed by the state government is over \$7 million. Therefore, Oversight will reflect a potential cost borne by the state in FY 2011 of over \$7 million for reimbursement to the local political subdivisions. Oversight assumes the Governor could call for a special election to be held prior to November, 2010 regarding this joint resolution; however, if a special election is not called, the subject will be voted on at the general election in November, 2010.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

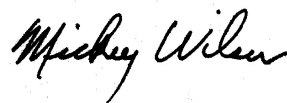

### FISCAL DESCRIPTION

Upon voter approval, this proposed constitutional amendment states that a person or employer may pay directly for lawful health care services and shall not be required to pay penalties for fines for paying directly for lawful health care services. The resolution provides ballot language for the amendment.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
