FISCAL ANALYSIS

ASSUMPTION

Section 195.017:

Officials from the **Department of Agriculture, Department of Public Safety, Missouri State Highway Patrol, Springfield Police Department, Boone County Sheriff's Department** and the **Department of Insurance, Financial Institutions & Professional Registration** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that

ASSUMPTION (continued)

this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

Officials from the **Department of Health and Senior Services (DHSS)** states the proposed legislation would make all products with ephedrine, pseudoephedrine, and phenylpropanolamine Schedule III controlled substances that require a prescription and would eliminate the tracking and reporting database requirements included in SB 724 (2008). The proposed legislation would not have a fiscal impact on DHSS.

Officials from the **Department of Revenue** assume the proposal would have no fiscal impact on their agency.

Oversight assumes a fiscal impact of (More Than \$100,000) could be realized. If the proposed legislation passes, there will no longer be sales tax collected on pseudoephedrine. If 4 million dollars worth of pseudoephedrine were sold in a year more than \$100,000 in sales tax would be lost (\$4,000,000 X 3%). The Conservation Fund, State School Moneys Fund and Parks & Soil Fund would have (Less Than \$100,000) fiscal impact (\$4M X .125%; \$4M X 1%; \$4M X .10%). Therefore, Oversight has included the General Revenue, Conservation, State School Moneys and Parks & Soil loss in the fiscal note.

FISCAL IMPACT - Small Business

If the proposed legislation passes licensed pharmacies and dispensing practitioners would no longer be required to maintain a log (written or electronic) of purchases and would not incur an indeterminate fiscal impact for purchasing electronic equipment, software, and related man-hours required in entering and transmitting data to the electronic log for methamphetamine purchases related to SB 724 (2008). At this time the electronic log has not been created yet. The legislation would also make methamphetamine precursors a Schedule III controlled substance, requiring a prescription. This would likely result in increased cost to pharmacies and practitioners.

FISCAL DESCRIPTION

Section 195.017:

The proposed legislation changes the controlled substance classification of all methamphetamine precursor drugs from Schedule IV and Schedule V to Schedule III. The classification change will require a physician's prescription to obtain any of these drugs.

The legislation also repeals provisions regarding the logging and recording of the sales as well as the storing of these drugs behind the counter from public access.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
