FISCAL ANALYSIS

ASSUMPTION

Officials from the **State Tax Commission, Department of Revenue, Missouri Department of Health and Senior Services, Office of the State Treasurer** assume this proposal would have no fiscal impact on their respective agencies.

Oversight sent the **County Commission of Jefferson County**, and the **County Health Department of Jefferson County** a fiscal note request and neither have answered our request.

Oversight assumes this proposal is enabling legislation and would have no fiscal impact without action by the Board of Trustees of the Public Health Center, and with voter approval. Therefore, Oversight will indicate no fiscal impact for the proposal.

Oversight will show in the fiscal analysis section of this fiscal note the results of a voter approved sales tax in Jefferson County for the benefit of the County's Public Health Center.

Oversight has no way of knowing if the voters would approve the imposition of a sales tax that could not exceed one-half of one percent. **Oversight** has no way of determining the rate of sales tax that would be approved by the voters.

This proposal provides for a property tax reduction in the levy that operates the Public Health Center in an amount sufficient to decrease the total property taxes it would collect. **Oversight** has no way of determining the amount of property tax reduction that would be provided, nor can **Oversight** determine the amount of revenue that would be generated by the sales tax.

Oversight will show all amounts as either \$0 (if the voters were not to approve the imposition of a sales tax), or a positive or negative unknown.

For purposes of this fiscal note **Oversight** will show the annual balance to the Jefferson County Public Health Center Improvement Sales Tax Fund as an annual zero balance

FISCAL IMPACT - Local Government (continued)

***Section 67.585 allows the voters to approve a sales tax for the county's Public Health Center and for public health programs. This bill requires the Public Health Center's Board of Trustees to reduce the total property tax levy in an amount sufficient to decrease the total property taxes it will collect. The reduction must be one of the following: Fifty Percent, Sixty Percent, Seventy Percent, Eighty Percent, or One Hundred Percent.**

FISCAL IMPACT - Small Business

Oversight assumes if the Jefferson County Public Health Center Board of Trustees were to obtain voter approval to levy a sales tax for public health purposes, small businesses would receive a property tax reduction, and would have to collect, pay, and administer the sales tax.

FISCAL DESCRIPTION

This bill authorizes Jefferson County, upon voter approval, to impose by order or resolution a retail sales tax of up to .5% for funding the public health and safety projects and programs of the county public health center. The tax can only be imposed in conjunction with a property tax reduction for each year in which the sales tax is imposed. The sales tax revenue must be deposited into the newly created County Public Health Center Improvement Sales Tax Fund to be used solely for the specified purposes, except that 1% will be deposited into the General Revenue Fund for the cost of collection.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
