## FISCAL ANALYSIS

### ASSUMPTION

#### **Sections 210.135 & 210.145:**

Officials from the **Department of Health and Senior Services, Department of Corrections, Boone County Sheriff's Department, Jefferson City Police Department, Office of the State Courts Administrator, Department of Public Safety** and the **Missouri State Highway Patrol** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Office of the Attorney General** assume any potential costs arising from this proposal can be absorbed with existing resources.

Officials from the **Department of Social Services-Children's Division** states the Division does not anticipate a fiscal or programmatic impact based on the following:

Section 210.135.3: The Division now has a process in place in which to offer assistance to staff in cases where it might be likely that staff are traumatized. Staff may now be removed from duties, when appropriate, at the direction of the division director.

Section 210.145.4: Currently both initial and repeat calls undergo the same screening process at the child abuse neglect hotline, which is based on statutory definition and criteria. This legislation would not change screen criteria and would not create a fiscal or programmatic impact for the Division.

Section 210.145.6: The Child Abuse/Neglect Unit screening process contains scripted language to instruct callers to contact 911 in instances where the child may be in immediate danger.

Currently Division workers use their own judgment on when it is appropriate to leave documentation on attempted visits; however it is common practice not to leave documentation. Although there are situations where it makes more sense to leave documentation for families to contact the Division as soon as possible, such in situations where we are trying to locate a victim who may need medical treatment, the Division does not anticipate a fiscal or programmatic impact.

Currently the Children's Division uses the CS-24, Description of the Investigation Process, to comply with 210.183 RSMo., which provides that "At the time of the initial investigation of a report of child abuse or neglect, the division employee conducting the investigation shall provide the alleged perpetrator with a written description of the investigation process." The CS-24

ASSUMPTION (continued)

provides the alleged perpetrator with a description of the investigation process, the alleged perpetrator appeal process and a statement of consumer rights which includes a Legal representation at all stages of the investigation and subsequent proceedings. This written material may require minor modification to accommodate the provisions of this legislation as well as modification to Division policy; however the Division would not anticipate a fiscal impact for the Division.

Officials from the **Office of Prosecution Services (OPS)** have not responded to Oversight's request for fiscal information.
