## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Department of Public Safety – Division of Alcohol and Tobacco Control** assume the proposal would have no fiscal impact on their agency.

Officials from the **Department of Elementary and Secondary Education (DESE)** assume there is no state cost to the foundation formula associated with this proposal. Should the new crimes and amendments to current law result in additional fines or penalties, DESE cannot know how much additional money might be collected by local governments or the Department of Revenue to distribute to schools. To the extent fine revenues exceed 2004-2005 collections, any increase in this money distributed to schools increases the deduction in the foundation formula the following year. Therefore, the affected districts will see an equal decrease in the amount of funding received through the formula the following year; unless the affected districts are hold-harmless, in which case the districts will not see a decrease in the amount of funding received through the formula (any increase in fine money distributed to the hold-harmless districts will simply be additional money). An increase in the deduction (all other factors remaining constant) reduces the cost to the state of funding the formula.

**Oversight** assumes any increase or decrease in fine or penalty revenues generated cannot be determined. Therefore, the fiscal note does not reflect any fine or penalty revenues for the local school districts.
