

HB 1526 -- State Contracts

Sponsor: Schaaf

This bill authorizes the Governor to enter into contracts without a bid or through an accelerated bid process program if cost-saving efficiencies are identified. The contracts are limited to 12 months and \$10 million or less. If a return on investment is achieved, the contract may be extended or rebid. The State Auditor may audit the return on investment assumption, and the Office of Administration must annually submit a list of all contracts which have occurred under this provision to the Speaker of the House of Representatives and the President Pro Tem of the Senate.
