

HB 1558 -- Car and Motorcycle Rental Companies

Sponsor: Biermann

This bill requires companies renting passenger cars or motorcycles in this state which use electronic surveillance technology to track a renter for the purpose of charging additional fines or surcharges for the renter's use to provide the customer with a separate rental agreement explaining the electronic surveillance and the possibility of imposing certain fines or surcharges for any improper operation of the vehicle. The company must also post signs in or on the rented vehicle stating that electronic surveillance may be used for the purpose of imposing fines or surcharges.
