

HB 1580 -- Hero at Home Program

Sponsor: Smith (14)

Currently, services provided under the Hero at Home Program include financial assistance due to reduced income after the deployment of a spouse. This bill removes the deployment requirement and allows services to be provided to any military family facing financial crisis.

The Department of Economic Development is required to submit a report on the operations and progress of the program to the Speaker of the House of Representatives and the President Pro Tem of the Senate by January 1, 2011.
