

HB 1649 -- Tobacco Use on Public School Property

Sponsor: Cooper

Currently, state law prohibits smoking or the use of tobacco products inside school facilities and on school buses but allows school districts to set policies regarding the permissible uses of tobacco products in outdoor areas and nonstudent facilities. This bill repeals the district's authority to set policies allowing the use of tobacco products in certain areas and prohibits smoking and the use of tobacco products on all school property as specified in the bill and on school buses.
