

HB 1935 -- Health Insurance Coverage for Cervical Cancer Screenings

Sponsor: Low

This bill requires all health benefit plans that are delivered, continued, or renewed on or after January 1, 2011, to provide coverage for periodic human papillomavirus (HPV) screenings for cervical cancer. The coverage cannot be subject to any greater deductible or co-payment than other services provided by the health plan. Certain supplemental insurance policies are exempt from the provisions of the bill.
