

HB 2032 -- Political Activities by Gubernatorial Appointees

Sponsor: Wasson

This bill prohibits public officials who are appointed by the Governor with the advice and consent of the Senate from holding office in or making donations to political parties or organizations and from taking part in any political campaign during their term of office.

When the Senate is notified of an appointment, a list will accompany the notice showing the appointee's contributions to any political campaign during the two years preceding the appointment.
