

HB 2063 -- Liquified Petroleum Gas Accidents

Sponsor: Kraus

This bill requires any person or affiliated industry who owns propane, liquified petroleum gas, or compressed natural gas or the storage and transportation infrastructure related to these gases to report any accident to the Missouri Propane Gas Commission. The report, which will be a public record, must include contact and identity information of the owner and the date, time, and extent of damages of the accident. The reporting requirement does not apply to residential users of these gases.
