

HB 2119 -- Forestry Management

Sponsor: Nance

Subject to appropriations, this bill allows the Department of Conservation, in collaboration with the Department of Natural Resources, to establish a program for good forestry management including, but not limited to, the removal and planting of trees. Any moneys collected by the Department of Natural Resources for removing trees must only be used for parks in Missouri and not included within the definition of total state revenues in Article X, Section 17, of the Missouri Constitution.
