

HB 2206 -- Sale and Distribution of the Revised Statutes of Missouri

Sponsor: Burlison

This bill repeals the provision which requires the Revisor of Statutes to provide a hard copy version of the Revised Statutes of Missouri without charge to specified libraries, state agencies, judges, court clerks, General Assembly members, and schools and repeals the provision creating the Statutory Revision Fund. The statutes will continue to be published and may be produced in a hard copy or in a web-based electronic format which the revisor may sell at a price as determined by the Committee on Legislative Research.
