

HB 2277 -- State Aid for Schools

Sponsor: Wallace

Currently, summer school attendance for the current school year is counted in the calculation of average daily attendance for state school aid. This bill specifies that, beginning in Fiscal Year 2011, summer school attendance will not be included in the calculation. The bill also removes the requirement for students to attend summer school in two provisions relating to achievement standards and repeals a section that requires summer school to be a weighting factor in the school funding formula under certain circumstances after the 2009-2010 school year.

The bill contains an emergency clause.
