

HB 2348 -- Licensure of Home Health Agencies

Sponsor: Kelly

Currently, the Department of Health and Senior Services is allowed, for the purpose of licensing a home health agency, to accept written reports of surveys conducted by a state or federal agency or a professional accrediting agency in lieu of a survey as required by Sections 197.400 - 197.475, RSMo, if certain specified conditions are met. This bill requires acceptance of these reports by the department.
