FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Governor (GOV)** state they employ three staff members to research, track, and maintain governor appointments to over 225 state boards and commissions. This proposal would require additional research into certain appointee's records (and his or her spouse's records) to ensure that there is no financial interest in the subject regulated by the board or commission. These records would include financial statements (including investments, stocks, and bonds), employment history, organizational affiliations, and thorough background checks. Staff time dedicated to these extensive searches will take away time needed to vet new individuals for appointments, fill vacancies, and maintain quorum on other boards and commissions. The current database that tracks these appointments would need to be updated to reflect the additional checks to ensure the appointee has no financial interest at stake. GOV estimates that the infrastructure to comply with these changes and the increased staff time will cost an unknown amount not to exceed \$100,000.

This proposal would also extend the period in which the Ethics Commission would be required to reveal all political contributions made by the appointee from four to ten years. GOV defers to the Ethics Commission for an estimate regarding the costs to comply with this change.

Officials from the **Missouri Ethics Commission (MEC)** state the current proposal would not fiscally impact their agency. Currently, the data is in paper form for years previous to 2006 and electronic for years 2006 and present. At this time, the MEC feels the costs to convert the data in to an electronic means can be absorbed by MEC.

Officials from the **Missouri Senate** state the current proposal has no fiscal impact or minimal costs which can be absorbed by present appropriations.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, a prospective gubernatorial appointee to a board or commission must file a financial statement detailing all political contributions made within the four-year period prior to such appointment. This act increases that time period to the ten year period prior to such appointment.

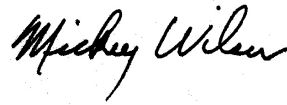

For all gubernatorial appointments made after August 28, 2012, where the appointee is designated as a "public member", "consumer representative", "patient advocate" or similar designation where specialized knowledge is not a prerequisite to appointment, this act requires that such members, or certain family members, shall not have, or have had, a financial interest in the subject regulated by the board or commission within at least the five years immediately preceding appointment. Further, such appointees shall not be, or have been, an employee of the state of Missouri within at least the five years immediately preceding appointment.

When state law requires that an organization or association recommend a prospective member of a board or commission, such organization or association must send a written letter of recommendation to the governor prior to the prospective member being appointed to such board or commission. No employee, or person on behalf of an employee, of the executive branch of the state of Missouri shall request that the organization or association recommend a specific individual for membership on such board or commission.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
