3 and unrestricted duties of a police officer as the natural, proximate, and exclusive result of an
4 accident occurring within the actual performance of duty at some definite time and place or through
5 an occupational disease arising exclusively out of and in the course of his or her employment shall be
6 retired by the board of police commissioners upon certification by one or more physicians of the
7 medical board that the member is mentally or physically unable to perform the full and unrestricted
8 duties of a police officer, that the inability is permanent or likely to become permanent, and that the
9 member should be retired. The inability to perform the full and unrestricted duties of a police officer
10 means that the member is unable to perform all the essential job functions for the position of police
11 officer as established by the board of police commissioners.

12 2. (1) Upon such retirement on or after August 28, 2001, and prior to August 28, 2013, a
13 member shall receive a base pension equal to seventy-five percent of his or her final compensation
14 for so long as the permanent disability shall continue, during which time such member shall for
15 purposes of this section be referred to as a disability beneficiary. Such pension may be subject to
16 offset or reduction under section 86.1190 by amounts paid or payable under any workers'
17 compensation law;

18 (2) Upon such retirement on or after August 28, 2013, a member shall receive a base pension
19 equal to eighty percent of his or her final compensation for so long as the permanent disability shall
20 continue, during which time such member shall for purposes of this section be referred to as a
21 disability beneficiary. Such pension may be subject to offset or reduction under section 86.1190 by
22 amounts paid or payable under any workers' compensation law.

23 3. Once each year during the first five years following his or her retirement, and at least once
24 in every three-year period thereafter, the retirement board may, and upon the member's application
25 shall, require any disability beneficiary who has not yet attained the age of sixty years to undergo a
26 medical examination at a place designated by the medical board or some member thereof. If any
27 disability beneficiary who has not attained the age of sixty years refuses to submit to a medical
28 examination his or her disability pension may be discontinued until his or her withdrawal of such
29 refusal, and if his or her refusal continues for one year, all rights in and to such pension may be
30 revoked by the retirement board.

31 4. If one or more members of the medical board certify to the retirement board that a
32 disability beneficiary is able to perform the full and unrestricted duties of a police officer, and if the
33 retirement board concurs on the report, then such beneficiary's disability pension shall cease.

34 5. If upon cessation of a disability pension under subsection 4 of this section, the former
35 disability beneficiary is restored to active service, such member shall contribute to this retirement
36 system thereafter at the same rate as other members. Upon subsequent retirement, such member
37 shall be credited with all his or her creditable service, including any years in which such member
38 received a disability pension under this section.

39 6. If upon cessation of a disability pension under subsection 4 of this section, the former
40 disability beneficiary is not restored to active service, such member shall be entitled to the retirement
41 benefit to which such member would have been entitled if such member had terminated service at

the time of such cessation of the disability pension. For the purpose of such retirement benefits, such former disability beneficiary will be credited with all his or her creditable service, including any years in which such member received a disability pension under this section.

86.1210. 1. Any member in active service entitled to commence a pension under subsection 1 of section 86.1150 [with twenty-six years or more of creditable service] or subsection 1 of section 86.1151 may elect an optional distribution under the partial lump sum option plan provided in this section if the member:

(1) Notifies the retirement system in writing of the member's retirement date at least ninety days in advance thereof and requests an explanation of the member's rights under this section; and

(2) Notifies the retirement system of the member's election hereunder at least thirty days in advance of the member's retirement date.

Following receipt of an initial notice of a member's retirement date and request for an explanation under this section, the retirement system shall, at least sixty days in advance of such retirement date, provide the member a written explanation of the member's rights under this section and an estimate of the amount by which the member's regular monthly base pension would be reduced in the event of the member's election of any of the options available to the member under this section.

2. (1) A member entitled to make an election under this section may elect to receive a lump sum distribution with the member's initial monthly pension payment under subsection 1 of section 86.1150 or subsection 1 of section 86.1151, subject to all the terms of this section. The member may elect the amount of the member's lump sum distribution from one, but not more than one, of the following options for which the member qualifies:

(a) A member having [twenty-six or more years of creditable service] one or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to twelve times the initial monthly base pension the member would receive if no election were made under this section;

(b) A member having [twenty-seven] two or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to twenty-four times the initial monthly base pension the member would receive if no election were made under this section; or

(c) A member having [twenty-eight] three or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to thirty-six times the initial monthly base pension the member would receive if no election were made under this section.

For purposes of this section, "eligible retirement date" for a member shall mean the earliest date on which the member could elect to retire and be entitled to receive a pension under subsection 1 of section 86.1150 or subsection 1 of section 86.1151.

(2) When a member makes an election to receive a lump sum distribution under this section, the base pension which the member would have received in the absence of the election shall be reduced on an actuarially equivalent basis to reflect the payment of the lump sum distribution, and the reduced base pension shall be the member's base pension thereafter for all purposes relating to base pension amounts under sections 86.900 to 86.1280, unless the member has also elected an

1 optional benefit permitted under subdivision (1) of subsection 2 of section 86.1151;

2 (3) If a member electing a lump sum distribution under this section has elected the optional
 3 benefit permitted under subdivision (1) of subsection 2 of section 86.1151, the calculation of the
 4 member's pension shall be made in the following order:

5 (a) The amount of the member's normal pension under subsection 1 of section 86.1151 shall
 6 be reduced to the actuarially equivalent amount to produce the optional form of benefit described in
 7 subdivision (1) of subsection 2 of section 86.1151, and

8 (b) The amount of reduced pension as determined under paragraph (a) of this subdivision
 9 shall be further reduced as required to produce an actuarially equivalent benefit in the form of the
 10 lump sum distribution option elected under this section which will include the lump sum benefit and
 11 the optional benefit elected under subdivision (1) of subsection 2 of section 86.1151, and, subject to
 12 cost-of-living adjustments thereafter declared on the spouse's base pension under section 86.1220,
 13 shall be paid to such surviving spouse for the lifetime of such spouse.

14 3. An election under this section to receive a lump sum distribution and reduced monthly
 15 base pension shall be void if the member dies before retirement, and in such case amounts due a
 16 surviving spouse or other beneficiary of the member shall be determined without regard to such
 17 election.

18 86.1220. 1. Provided that the retirement system shall remain actuarially sound, each of the
 19 following persons may receive [each year], in addition to such person's base pension, a cost-of-living
 20 adjustment in an amount not to exceed three percent of such person's base pension during any one
 21 year:

22 (1) Every Tier I member who is retired and receiving a base pension from the retirement
 23 system; and

24 (2) Every Tier I surviving spouse who is receiving a base pension from the retirement
 25 system; and

26 (3) Every child who, under subsection 2 of section 86.1250, is receiving the benefit, or a
 27 portion thereof, which would be payable to a surviving spouse of the member who was such child's
 28 parent].

29 2. Provided that the retirement system shall remain actuarially sound, each of the following
 30 persons may receive, in addition to such person's base pension, a cost-of-living adjustment in an
 31 amount not to exceed three percent of such person's base pension during any one year as follows:

32 (1) Every Tier II member who retired with at least thirty-two years of creditable service shall
 33 be eligible in the year following retirement; and

34 (2) Every Tier II member who retired under subsection 1 of section 86.1151 with less than
 35 thirty-two years of creditable service shall be eligible in the year following the year in which they
 36 would have attained thirty-two years of creditable service had such member remained in active
 37 service; and

38 (3) Every Tier II member who retired under section] shall be eligible in the year following
 39 retirement; and

40 (4) Every Tier II member who retired under section 86.1200 shall be eligible in the earlier of
 41 the year following the fifth year after retirement or the year following the year in which they would

1 have attained thirty-two years of creditable service had such member remained in active service; and
 2 (5) Every Tier II member who retired under subsection 3 of section 86.1151 shall be eligible
 3 in the year following the fifth year after retirement; and

4 (6) (a) Every Tier II surviving spouse of a member who, at the member's death, was
 5 receiving benefits including cost-of-living adjustments shall be eligible in the year following the
 6 most recent year when the decedent received a cost-of-living adjustment; and

7 (b) Every Tier II surviving spouse of a member who, at the member's death, was receiving
 8 benefits but who was not yet eligible for cost-of-living adjustments shall be eligible in the year when
 9 the decedent member would have become eligible had such decedent survived; and

10 (c) Every Tier II surviving spouse entitled to the benefit provided in subsection 1 of section
 11 86.1260 shall be eligible in the year following the year of the member's death; and

12 (d) Every Tier II surviving spouse of a member who died with less than twenty-seven years
 13 of creditable service, entitled to benefits provided in subsection 1 of section 86.1240, and who is not
 14 eligible for the benefit provided in subsection 1 of section 86.1260, shall be eligible in the year
 15 following the fifth year after the member's death; and

16 (e) Every Tier II surviving spouse of a member who died with twenty-seven or more years of
 17 creditable service, entitled to benefits provided in subsection 1 of section 86.1240, and who is not
 18 eligible for the benefit provided in subsection 1 of section 86.1260, shall be eligible the later of the
 19 year following the year of the member's death or the year following the year in which the member
 20 would have attained thirty-two years of creditable service had such member remained in active
 21 service.

22 3. Provided that the retirement system shall remain actuarially sound, every child who, under
 23 subsection 2 of section 86.1250, is receiving the benefit, or a portion thereof, which would be
 24 payable to a surviving spouse of the member who was such child's parent, may receive each year
 25 such cost-of-living adjustment on such benefit as would have been payable on such benefit, or
 26 portion thereof, to such surviving spouse if living.

27 4. Upon the death of a Tier I member who has been retired and receiving a pension and who
 28 dies after September 28, 1987, the surviving spouse of such member entitled to receive a base
 29 pension under section 86.1240 or children of such member entitled to receive a base pension under
 30 subsection 2 of section 86.1250 shall receive an immediate percentage cost-of-living adjustment to
 31 their respective base pension equal to the total percentage cost-of-living adjustments received during
 32 such member's lifetime under this section, except that the adjustment provided by this subsection
 33 shall not be made to a base pension calculated under either subdivision (1) or paragraph (b) of
 34 subdivision (2) of subsection 2 of section 86.1240, either for a surviving spouse or for a child or
 35 children entitled to a base pension measured by the pension to which a qualified surviving spouse
 36 would be entitled, wherein such base pension is determined by a percentage of the amount being
 37 received by the deceased member at death.

38 5. Upon the death of a Tier II member who has been retired and receiving a pension, the
 39 surviving spouse of such member entitled to receive a base pension under section 86.1240 or
 40 children of such member entitled to receive a base pension under subsection 2 of section 86.1250
 41 shall receive an immediate percentage cost-of-living adjustment to their respective base pension

1 equal to the total percentage cost-of-living adjustments received during such member's lifetime under
2 this section, except that the adjustment provided by this subsection shall not apply for any surviving
3 spouse, or for a child or children entitled to benefits which would be received by a qualified
4 surviving spouse, receiving a benefit pursuant to an election made under subdivision (1) of
5 subsection 2 of section 86.1151.

6 [3.] 6. For purposes of this section, the term "base pension" shall mean:

7 (1) For a member, the pension computed under the provisions of the law as of the date of
8 retirement without regard to cost-of-living adjustments, as adjusted, if applicable, for any election
9 made under subdivision (1) of subsection 2 of section 86.1151 or section 86.1210, but in all events
10 not including any supplemental benefit under section 86.1230 or section 86.1231;

11 (2) For a surviving spouse, the base pension calculated for such spouse in accordance with
12 the provisions of section 86.1240 or subdivision (3) of subsection 2 of section 86.1151, including
13 any compensation as a consultant to which such surviving spouse is entitled under said section in lieu
14 of a pension thereunder, but not including any supplemental benefit under section 86.1230 or section
15 86.1231; and

16 (3) For a member's surviving child who is entitled to receive part or all of the pension which
17 would be received by the surviving spouse, if living, the base pension calculated for such surviving
18 spouse in accordance with the provisions of section 86.1240 or subdivision (3) of subsection 2 of
19 section 86.1151, including any compensation as a consultant to which such spouse would be entitled
20 under said section, if living, divided by the number of surviving children entitled to share in such
21 pension under subsection 2 of section 86.1250.

22 [4.] 7. The cost-of-living adjustment shall be an increase or decrease computed on the base
23 pension amount by the retirement board in an amount that the board, in its discretion, determines to
24 be satisfactory, but in no event shall the adjustment be more than three percent or reduce the pension
25 to an amount less than the base pension. In determining and granting the cost-of-living adjustments,
26 the retirement board shall adopt such rules and regulations as may be necessary to effectuate the
27 purposes of this section, including provisions for the manner of computation of such adjustments and
28 the effective dates thereof. The retirement board shall provide for such adjustments to be determined
29 once each year and granted on a date or dates to be chosen by the board, and may apply such
30 adjustments in full to eligible members as provided in subsections 1 and 2 of this section who have
31 retired during the year prior to such adjustments but who have not been retired for one full year and
32 to the surviving spouse or applicable children of a member who has died during the year prior to
33 such adjustments.

34 [5.] 8. The determination of whether the retirement system will remain actuarially sound
35 shall be made at the time any cost-of-living adjustment is granted. If at any time the retirement
36 system ceases to be actuarially sound, pension payments shall continue as adjusted by increases
37 theretofore granted. A member of the retirement board shall have no personal liability for granting
38 increases under this section if that retirement board member in good faith relied and acted upon
39 advice of a qualified actuary that the retirement system would remain actuarially sound.

40 [6.] 9. If any benefit under subsection 1 of section 86.1250 on August 27, 2005, would be
41 reduced by application of this section, such benefit shall continue thereafter without reduction, but

1 any benefit so continued shall terminate at the time prescribed in subsection 1 of section 86.1250.

2 86.1230. 1. Any Tier I member who retires subsequent to August 28, 1991, with entitlement
3 to a pension under sections 86.900 to 86.1280, shall receive, in addition to such member's base
4 pension and cost-of-living adjustments thereto under section 86.1220, and in addition to any other
5 compensation or benefit to which such member may be entitled under sections 86.900 to 86.1280, a
6 supplemental retirement benefit of fifty dollars per month. The amount of such supplemental
7 retirement benefit may be adjusted by cost-of-living adjustments determined by the retirement board
8 not more frequently than annually.

9 2. Any Tier I member who was retired on or before August 28, 1991, and is receiving
10 retirement benefits from the retirement system shall, upon application to the retirement board, be
11 retained as a consultant, and for such services such member shall receive, in addition to such
12 member's base pension and cost-of-living adjustments thereto under section 86.1220, and in addition
13 to any other compensation or benefit to which such member may be entitled under sections 86.900 to
14 86.1280, a supplemental compensation in the amount of fifty dollars per month. This appointment
15 as a consultant shall in no way affect any member's eligibility for retirement benefits under the
16 provisions of sections 86.900 to 86.1280, or in any way have the effect of reducing retirement
17 benefits otherwise payable to such member. The amount of such supplemental compensation under
18 this subsection may be adjusted by cost-of-living adjustments determined by the retirement board not
19 more frequently than annually.

20 3. For purposes of subsections 1 and 2 of this section, the term "member" shall include a
21 surviving spouse entitled to a benefit under sections 86.900 to 86.1280 who shall be deemed to have
22 retired for purposes of this section on the date of retirement of the member of whom such person is
23 the surviving spouse or on the date of death of such member if such member died prior to retirement;
24 provided, that if the surviving spouse of any member who retired prior to August 28, 2000, shall not
25 have remarried prior to August 28, 2000, but remarries thereafter, such surviving spouse shall
26 thereafter receive benefits under subsection 2 of this section, and provided further, that no benefits
27 shall be payable under this section to the surviving spouse of any member who retired prior to
28 August 28, 2000, if such surviving spouse was at any time remarried after the member's death and
29 prior to August 28, 2000. All benefits payable to a surviving spouse under this section shall be in
30 addition to all other benefits to which such surviving spouse may be entitled under other provisions
31 of sections 86.900 to 86.1280. Any such surviving spouse of a member who dies while entitled to
32 payments under this section shall succeed to the full amount of payment under this section to which
33 such member was entitled at the time of such member's death, including any cost-of-living
34 adjustments received by such member in the payment under this section prior to such member's
35 death. In all events, the term "member" shall not include any children of the member who would be
36 entitled to receive part or all of the pension which would be received by a surviving spouse if living.

37 4. Any member who is receiving benefits from the retirement system and who either was
38 retired under the provisions of subdivision (1) of subsection 1 of section 86.1150, or who retired
39 before August 28, 2001, under the provisions of section 86.1180 or section 86.1200, shall, upon
40 application to the retirement board, be retained as a consultant. For such services such member shall
41 receive each month in addition to such member's base pension and cost-of-living adjustments thereto

1 under section 86.1220, and in addition to any other compensation or benefit to which such member
2 may be entitled under sections 86.900 to 86.1280, an equalizing supplemental compensation of ten
3 dollars per month. This appointment as a consultant shall in no way affect any member's eligibility
4 for retirement benefits under the provisions of sections 86.900 to 86.1280, or in any way have the
5 effect of reducing retirement benefits otherwise payable to such member. The amount of equalizing
6 supplemental compensation under this subsection may be adjusted by cost-of-living adjustments,
7 determined by the retirement board not more frequently than annually, but in no event shall the
8 aggregate of such equalizing supplemental compensation together with all such cost-of-living
9 adjustments thereto exceed twenty-five percent of the member's base pension. Each cost-of-living
10 adjustment to compensation under this subsection shall be determined independently of any
11 cost-of-living adjustment to any other benefit under sections 86.900 to 86.1280. For the purposes of
12 this subsection, the term "member" shall include a surviving spouse entitled to benefits under the
13 provisions of sections 86.900 to 86.1280, and who is the surviving spouse of a member who
14 qualified, or would have qualified if living, for compensation under this subsection. Such surviving
15 spouse shall, upon application to the retirement board, be retained as a consultant, and for such
16 services shall be compensated in an amount equal to the compensation which would have been
17 received by the member under this subsection, if living. Any such surviving spouse of a member
18 who dies while entitled to payments under this subsection shall succeed to the full amount of
19 payment under this subsection to which such member was entitled at the time of such member's
20 death, including any cost-of-living adjustments received by such member in the payment under this
21 subsection prior to such member's death. In all events, the term "member" shall not include any
22 children of the member who would be entitled to receive part or all of the pension that would be
23 received by a surviving spouse, if living.

24 5. A surviving spouse who is entitled to benefits under the provisions of subsection 1 of
25 section 86.1240 as a result of the death prior to August 28, 2007, of a member in service, and who is
26 receiving benefits from the retirement system, shall, upon application to the retirement board, be
27 retained as a consultant, and for such services such surviving spouse shall receive each month an
28 equalizing supplemental compensation of ten dollars per month. A surviving spouse entitled to
29 benefits under the provisions of subsection 1 of section 86.1240 as a result of the death of a member
30 in service on or after August 28, 2007, shall receive each month an equalizing supplemental benefit
31 of ten dollars per month. All benefits payable to a surviving spouse under this subsection shall be in
32 addition to all other benefits to which such surviving spouse may be entitled under other provisions
33 of sections 86.900 to 86.1280 and shall in no way have the effect of reducing benefits otherwise
34 payable to such surviving spouse. The amount of equalizing supplemental benefit or equalizing
35 supplemental compensation under this subsection may be adjusted by cost-of-living adjustments,
36 determined by the retirement board not more frequently than annually, but in no event shall the
37 aggregate of such equalizing supplemental benefit or compensation together with all such
38 cost-of-living adjustments thereto exceed twenty-five percent of the base pension of the surviving
39 spouse. Each cost-of-living adjustment to an equalizing supplemental benefit or compensation under
40 this subsection shall be determined independently of any cost-of-living adjustment to any other
41 benefit under sections 86.900 to 86.1280. In all events the term "surviving spouse" as used in this

1 subsection shall not include any children of the member who would be entitled to receive part or all
2 of the pension that would be received by a surviving spouse, if living.

3 6. In determining and granting the cost-of-living adjustments under this section, the
4 retirement board shall adopt such rules and regulations as may be necessary to effectuate the
5 purposes of this section, including provisions for the manner of computation of such adjustments and
6 the effective dates thereof. The retirement board shall provide for such adjustments to be determined
7 once each year and granted on a date or dates to be chosen by the board. The retirement board shall
8 not be required to prorate the initial adjustment to any benefit or compensation under this section for
9 any member.

10 7. The determination of whether the retirement system will remain actuarially sound shall be
11 made at the time any cost-of-living adjustment under this section is granted. If at any time the
12 retirement system ceases to be actuarially sound, any benefit or compensation payments provided
13 under this section shall continue as adjusted by increases or decreases theretofore granted. A
14 member of the retirement board shall have no personal liability for granting increases under this
15 section if that retirement board member in good faith relied and acted upon advice of a qualified
16 actuary that the retirement system would remain actuarially sound.

17 86.1231. Any Tier II member who retires with entitlement to a pension under sections
18 86.900 to 86.1280, shall receive, in addition to such member's base pension and cost-of-living
19 adjustments thereto under section 86.1220, and in addition to any other compensation or benefit to
20 which such member may be entitled under sections 86.900 to 86.1280, a supplemental retirement
21 benefit of two hundred dollars per month. For purposes of this section, the term "member" shall
22 include a surviving spouse entitled to a benefit under sections 86.900 to 86.1280 as a Tier II
23 surviving spouse. All benefits payable to a surviving spouse under this section shall be in addition to
24 all other benefits to which such surviving spouse may be entitled under other provisions of sections
25 86.900 to 86.1280. Any such surviving spouse of a member who dies while entitled to payments
26 under this section shall succeed to the full amount of payment under this section to which such
27 member was entitled at the time of such member's death. In all events, the term "member" shall not
28 include any children of the member who would be entitled to receive part or all of the pension which
29 would be received by a surviving spouse, if living.

30 86.1240. 1. Upon receipt of the proper proofs of death of a member in service for any
31 reason whatsoever, there shall be paid to such member's surviving spouse, if any, in addition to all
32 other benefits but subject to subsection 6 of this section, a base pension equal to forty percent of the
33 final compensation of such member, subject to adjustments, if any, as provided in section 86.1220.

34 2. (1) Upon receipt of the proper proofs of death of a Tier I member who was retired or
35 terminated service after August 28, 1999, and died after having become entitled to benefits from this
36 retirement system, there shall be paid to such member's surviving spouse, if any, in addition to all
37 other benefits but subject to subsection 6 of this section, a base pension equal to eighty percent of the
38 pension being received by such member, including cost-of-living adjustments to such pension but
39 excluding supplemental retirement benefits, at the time of such member's death, subject to
40 subsequent adjustments, if any, as provided in section 86.1220. The pension provided by this
41 subdivision shall terminate upon remarriage by the surviving spouse prior to August 28, 2000.

1 (2) (a) Upon receipt of the proper proof of death of a Tier I member who retired or
 2 terminated service on or before August 28, 1999, and who died after August 28, 1999, and after
 3 having become entitled to benefits from this retirement system, such member's surviving spouse, if
 4 any, shall be entitled to a base pension equal to forty percent of the final compensation of such
 5 member.

6 (b) Such a surviving spouse shall, upon application to the retirement board, be appointed by
 7 the retirement board as a consultant and be compensated in an amount equal to the benefits such
 8 spouse would receive under subdivision (1) of this subsection if the member had retired or
 9 terminated service after August 28, 1999.

10 (c) The benefits provided by this subdivision shall terminate upon remarriage by the
 11 surviving spouse prior to August 28, 2000.

12 (3) Upon receipt of the proper proof of death of a Tier II member after retirement who has
 13 not elected the optional annuity permitted under subdivision (1) of subsection 2 of section 86.1151,
 14 such member's surviving spouse, shall be entitled to a base pension payable for life equaling fifty
 15 percent of the member's base pension.

16 3. In the case of any member who, prior to August 28, 2000, died in service or retired, the
 17 surviving spouse who would qualify for benefits under subsection 1 or 2 of this section but for
 18 remarriage, and who has not remarried prior to August 28, 2000, but remarries thereafter, shall upon
 19 application be appointed by the retirement board as a consultant. For services as such consultant,
 20 such surviving spouse shall be compensated in an amount equal to the benefits such spouse would
 21 have received under sections 86.900 to 86.1280 in the absence of such remarriage.

22 4. Upon the death of any member who is in service after August 28, 2000, and who either
 23 had at least twenty-five years of creditable service or was retired or died as a result of an injury or

 25 spouse's benefit provided under this section, without including any supplemental retirement benefits
 26 paid such surviving spouse by this retirement system, shall be six hundred dollars per month. For
 27 any member who died, retired or terminated service on or before August 28, 2000, and who either

 29 illness occurring in the line of duty or course of employment under section 86.1180, the surviving
 30 spouse shall upon application to the retirement board be appointed by the retirement board as a
 31 consultant. For services as such consultant, the surviving spouse shall, beginning the later of August
 32 28, 2000, or the time the appointment is made under this subsection, be compensated in an amount
 33 which without including supplemental retirement benefits provided by this system shall be six
 34 hundred dollars monthly. A pension benefit under this subsection shall be paid in lieu of any base
 35 pension as increased by cost-of-living adjustments granted under section 86.1220. The benefit under
 36 this subsection shall not be subject to cost-of-living adjustments, but shall be terminated and replaced
 37 by the base pension and cost-of-living adjustments to which such spouse would otherwise be entitled
 38 at such time as the total base pension and such adjustments exceed six hundred dollars monthly.

39 5. A surviving spouse who is entitled to benefits under the provisions of subsection 1 of this
 40 section as a result of the death on or before August 28, 2009, of a member in service who is receiving
 41 benefits under sections 86.900 to 86.1280 and who does not qualify under the provisions of

1 subsection 4 of this section shall, upon application to the retirement board, be appointed as a
2 consultant, and for such services such surviving spouse shall be compensated in an amount which,
3 without including any supplemental retirement benefits provided by sections 86.900 to 86.1280,
4 shall be six hundred dollars monthly. A pension benefit under this subsection shall be paid in lieu of
5 any base pension as increased by cost-of-living adjustments granted under section 86.1220. The
6 benefit under this subsection shall not be subject to cost-of-living adjustments, but shall be
7 terminated and replaced by the base pension and cost-of-living adjustments to which such surviving
8 spouse would otherwise be entitled at such time as the total base pension and such adjustments
9 exceed six hundred dollars monthly. As used in this subsection, "surviving spouse" shall not include
10 any children of the member who would be entitled to receive part or all of the pension that would be
11 received by a surviving spouse, if living.

12 6. Any beneficiary of benefits under sections 86.900 to 86.1280 who becomes the surviving
13 spouse of more than one member shall be paid all benefits due a surviving spouse of that member
14 whose entitlements produce the largest surviving spouse benefits for such beneficiary but shall not be
15 paid surviving spouse benefits as the surviving spouse of more than one member.

16 86.1250. 1. (1) Upon the death of a member in service or after retirement, such member's
17 child or children under the age of eighteen years at the time of the member's death shall be paid fifty
18 dollars per month each until he or she shall attain the age of eighteen years; however, each such child
19 who is or becomes a full-time student at an accredited educational institution shall continue to
20 receive payments under this section for so long as such child shall remain such a full-time student or
21 shall be in a summer or other vacation period scheduled by the institution with intent by such child,
22 demonstrated to the satisfaction of the retirement board, to return to such full-time student status
23 upon the resumption of the institution's classes following such vacation period, but in no event shall
24 such payments be continued after such child shall attain the age of twenty-one years except as
25 hereinafter provided.

26 (2) Any child eighteen years of age or older, who is physically or mentally incapacitated
27 from wage earning, so long as such incapacity exists as certified by a member of the medical board,
28 shall be entitled to the same benefits as a child under the age of eighteen. For purposes of this
29 section, a determination of whether a child of a member is physically or mentally incapacitated from
30 wage earning so that the child is entitled to benefits under this section shall be made at the time of
31 the member's death. If a child becomes incapacitated after the member's death, or if a child's
32 incapacity existing at the member's death is removed and such child later becomes incapacitated
33 again, such child shall not be entitled to benefits as an incapacitated child under the provisions of this
34 section. A child shall be deemed incapacitated only for so long as the incapacity existing at the time
35 of the member's death continues.

36 (3) Notwithstanding any other law to the contrary, amounts payable under subdivision (1) or
37 (2) of this subsection shall not be subject to offset or reduction by amounts paid or payable under any
38 workers' compensation or similar law.

39 2. Upon or after the death of a member in service or after retirement with entitlement to
40 benefits, if there is no surviving spouse or if a surviving spouse dies, the total amount, including any
41 amounts receivable as consulting compensation, but not including any supplemental benefits under

1 section 86.1230 for a Tier I member or section 86.1231 for a Tier II member, which would be
 2 received by a qualified surviving spouse or which is being received by the surviving spouse at the
 3 date of death of such surviving spouse shall be added to the amounts received by and shall be divided
 4 among the children of such member under the age of eighteen years and the incapacitated children in
 5 equal shares. As each such child attains the age of eighteen years or has such incapacity removed,
 6 such total amount shall then be divided among the remaining such children, until there is no
 7 remaining child of such member under the age of eighteen years or incapacitated, at which time all
 8 benefits for children of such member under this subsection shall cease.

9 3. Upon the death of a member in service or after retirement, a funeral benefit of one
 10 thousand dollars shall be paid to the person or entity who provided or paid for the funeral services
 11 for such member.

12 86.1270. 1. A retirement plan under sections 86.900 to 86.1280 is a qualified plan under the
 13 provisions of applicable federal law. The benefits and conditions of a retirement plan under sections
 14 86.900 to 86.1280 shall always be adjusted to ensure that the tax-exempt status is maintained.

15 2. The retirement board shall administer the retirement system in a manner as to retain at all
 16 times qualified status under Section 401(a) of the Internal Revenue Code.

17 3. The retirement board shall hold in trust the assets of the retirement system for the
 18 exclusive benefit of the members and their beneficiaries and for defraying reasonable administrative
 19 expenses of the system. No part of such assets shall, at any time prior to the satisfaction of all
 20 liabilities with respect to members and their beneficiaries, be used for or diverted to any purpose
 21 other than such exclusive benefit or to any purpose inconsistent with sections 86.900 to 86.1280.

22 4. A member's benefit shall be one hundred percent vested and nonforfeitable upon the
 23 member's attainment of normal retirement age, which shall be the earlier of:

24 (1) Completion of twenty-five years of service for Tier I members and twenty-seven years of
 25 service for Tier II members;

26 (2) Age sixty [if the] for any Tier I member who has completed at least ten years of
 27 creditable service or age sixty for any Tier II member who has completed at least fifteen years of
 28 creditable service;

29 (3) Age seventy without regard to years of service; or

30 (4) To the extent funded, upon the termination of the system established under sections
 31 86.900 to 86.1280 or any partial termination which affects the members or any complete
 32 discontinuance of contributions by the city to the system.

33
 34 Amounts representing forfeited nonvested benefits of terminated members shall not be used to
 35 increase benefits payable from the system but may be used to reduce contributions for future plan
 36 years.

37 5. Distribution of benefits shall begin not later than April first of the year following the later
 38 of the calendar year during which the member becomes seventy and one-half years of age or the
 39 calendar year in which the member retires, and shall otherwise conform to Section 401(a)(9) of the
 40 Internal Revenue Code.

41 6. A member or beneficiary of a member shall not accrue a service retirement annuity,

1 disability retirement annuity, death benefit, whether death occurs in the line of duty or otherwise, or
2 any other benefit under sections 86.900 to 86.1280 in excess of the benefit limits applicable to the
3 fund under Section 415 of the Internal Revenue Code. The retirement board shall reduce the amount
4 of any benefit that exceeds those limits by the amount of the excess. If the total benefits under the
5 retirement system and the benefits and contributions to which any member is entitled under any
6 other qualified plan or plans maintained by the board of police commissioners that employs the
7 member would otherwise exceed the applicable limits under Section 415 of the Internal Revenue
8 Code, the benefits the member would otherwise receive from the retirement system shall be reduced
9 to the extent necessary to enable the benefits to comply with Section 415 of the Internal Revenue
10 Code.

11 7. The total salary taken into account for any purpose for any member of the retirement
12 system shall not exceed two hundred thousand dollars per year, subject to periodic adjustments in
13 accordance with guidelines provided by the United States Secretary of the Treasury, and shall not
14 exceed such other limits as may be applicable at any given time under Section 401(a)(17) of the
15 Internal Revenue Code.

16 8. If the amount of any benefit is to be determined on the basis of actuarial assumptions that
17 are not otherwise specifically set forth for that purpose in sections 86.900 to 86.1280, the actuarial
18 assumptions to be used are those earnings and mortality assumptions being used on the date of the
19 determination by the retirement system's actuary and approved by the retirement board. The
20 actuarial assumptions being used at any particular time shall be attached as an addendum to a copy of
21 the retirement system's statute that is maintained by the retirement board and shall be treated for all
22 purposes as a part of sections 86.900 to 86.1280. The actuarial assumptions may be changed by the
23 retirement system's actuary annually if approved by the retirement board, but a change in actuarial
24 assumptions shall not result in any decrease in benefits accrued as of the effective date of the change.

25 9. Any member or beneficiary who is entitled to receive any distribution that is an eligible
26 rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to
27 have that distribution transferred directly to another eligible retirement plan of the member's or
28 beneficiary's choice upon providing direction to the secretary of this retirement system regarding the
29 transfer in accordance with procedures established by the retirement board.

30 10. For all distributions made after December 31, 2001:

31 (1) For the purposes of subsection 9 of this section, an eligible retirement plan shall also
32 mean an annuity contract described in Section 403(b) of the Internal Revenue Code and an eligible
33 plan under Section 457(b) of the Internal Revenue Code which is maintained by the state, political
34 subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state
35 and which agrees to separately account for amounts transferred into such plan from the retirement
36 system. The definition of eligible retirement plan shall also apply in the case of a distribution to a
37 surviving spouse or to a spouse or former spouse who is the alternate payee under a qualified
38 domestic relations order, as defined in Section 414(p) of the Internal Revenue Code; and

39 (2) For purposes of subsection 9 of this section, a portion of a distribution shall not fail to be
40 an eligible rollover distribution merely because the portion consists of after-tax employee
41 contributions which are not includable in gross income. However, such portion may be paid only to

1 an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal
 2 Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of
 3 the Internal Revenue Code that agrees to separately account for amounts so transferred, including
 4 separately accounting for the portion of such distribution that is includable in gross income and the
 5 portion of such distribution that is not so includable.

16 as the member's base annual salary immediately prior to the commencement of such leave of
17 absence; provided, however, that the foregoing provisions of this subsection shall apply only to such
18 portion of such leave with respect to which the cumulative length of the absence and of all previous
19 absences from a position of employment with the employer by reason of service in the uniformed

41 years of creditable service or at any later age after the member has completed at least five years of

creditable service. Unless subdivision (3) of this subsection shall be applicable, the benefit as computed under subsection 1 of this section shall be reduced by one-half of one percent for each full month the initial payment is prior to the first day of the month following that in which such member will attain age sixty-five; or

(3) At any time after the member's total of age and years of creditable service equals or exceeds eighty, in which event the benefit shall be as computed under subsection 1 of this section without any reduction. If an election for early retirement results in a reduced benefit under subdivision (1) or (2) of this subsection, such reduced benefit shall become the member's base pension, subject to all other adjustments described in this section.

3. Tier II members may elect early retirement as follows:

(1) Beginning at age sixty-two, if the member has completed at least five years of creditable service, the benefit as computed under subsection 1 of this section shall be reduced by one-half of one percent for each full month the initial payment is prior to the first day of the month following that in which such member will attain age sixty-seven; or

(2) At any time after the member has completed at least twenty years of creditable service and is at least sixty-two years of age, in which event the benefit shall be as computed under subsection 1 of this section without any reduction; or

(3) At any time after the member's total of age and years of creditable service equals or exceeds eighty-five, in which event the benefit shall be as computed under subsection 1 of this section without any reduction. If an election for early retirement results in a reduced benefit under subdivision (1) of this subsection, such reduced benefit shall become the member's base pension, subject to all other adjustments described in this section.

4. (1) A member who is married at the time of retirement may by a written election, with the written consent of such member's spouse, elect an optional benefit calculated as follows: such optional benefit shall be a monthly pension in the initial amount which shall be actuarially equivalent to the actuarial value of the pension described in subdivision (1) of subsection 1 of this section for such member at the date of retirement (including the value of survivorship rights of a surviving spouse, where applicable, under section 86.1610), upon the basis that the initial annuity for the member's spouse, if such spouse survives the member, shall be the same as the amount being paid the member on such annuity at the member's death, and, subject to cost-of-living adjustments thereafter declared on the spouse's base pension under section 86.1590, shall be paid to such surviving spouse for the lifetime of such spouse without regard to remarriage. If a member who makes an election of an optional benefit under this subsection has also elected an early retirement under either subdivision (1) or (2) of subsection 2 of this section or subdivision (1) of subsection 3 of this section, any reduction in benefit required for such early retirement election shall be calculated before calculating the initial amount of the optional benefit under this subsection.

(2) If a member who makes the election permitted by this subsection also makes an election permitted under section 86.1580, such optional benefit shall be reduced as provided in subdivision (3) of subsection 2 of section 86.1580.

(3) If a member makes the election permitted by this subsection, the amount calculated for such optional benefit under either subdivision (1) or (2) of this subsection shall be the base pension

1 for such member and for such member's spouse for all purposes of sections 86.1310 to 86.1640.

2 (4) An election for an optional benefit under this subsection shall be void if the member dies
3 within thirty days after filing such election with the retirement system or if the member dies before
4 the due date of the first payment of such member's pension.

5 [4.] 5. Subject to the provisions of subsection [6] 7 of this section, whenever the service of a
6 member is terminated after August 28, 1999, for any reason prior to death or retirement and the
7 member has five or more years of creditable service, the member may elect not to withdraw such
8 member's accumulated contributions and shall become entitled to receive a pension upon such
9 member's normal retirement date under subdivision (1) of subsection 1 of this section or may elect to
10 receive a pension commencing upon or after any date, prior to his or her normal retirement date,
11 upon which early retirement would have been permitted under subsection 2 of this section for Tier I
12 members or subsection 3 of this section for Tier II members if such member had remained a civilian
13 employee of such police department, except that in calculating any qualification under [subsection]
14 subsections 2 or 3 of this section, such member shall not be entitled to count any year of creditable
15 service in excess of such member's total years of creditable service at the time of such member's
16 termination of employment. The amount of any pension commenced upon the basis of a date
17 permitted under [subsection] subsections 2 or 3 of this section shall be computed on the basis of the
18 member's final compensation and number of years of creditable service, subject to such adjustments
19 as may be applicable under the subdivision of [subsection] subsections 2 or 3 of this section upon
20 which such member relies in electing such member's pension and subject to any other adjustments
21 that such member may elect under this section. The amount of the initial pension calculated after all
22 applicable adjustments shall be the base pension for such member, and for such member's spouse if
23 such member shall elect the optional benefit permitted under subsection [3] 4 of this section, for all
24 purposes of sections 86.1310 to 86.1640. Payment of any benefits elected under this subsection shall
25 commence as of the first day of the month next following the applicable date with no proration of
26 such benefit for any initial partial month.

27 [5.] 6. A member whose service was terminated on or before August 28, 1999, after five or
28 more years of creditable service, and who permitted such member's accumulated contributions to
29 remain in the pension fund, shall upon application to the retirement board be appointed as a
30 consultant. For services as such consultant, such member shall, beginning the later of August 28,
31 1999, or the time of such appointment under this subsection, be entitled to elect to receive
32 compensation in such amount and at such time as such member would have been entitled to elect
33 under any of the provisions of subsection [4] 5 of this section if such member had terminated service
34 after August 28, 1999. Such member shall be entitled to the same cost-of-living adjustments
35 following the commencement of such compensation as if such member's compensation had been a
36 base pension.

37 [6.] 7. Notwithstanding any other provisions of sections 86.1310 to 86.1640, any member
38 who is convicted of a felony prior to separation from active service shall not be entitled to any
39 benefit from this retirement system except the return of such member's accumulated contributions.

40 86.1580. 1. Any member in active service entitled to commence a pension under section
41 86.1540 may elect an optional distribution under the partial lump sum option plan provided in this

1 section if the member:

2 (1) Notifies the retirement system in writing of the member's retirement date at least ninety
3 days in advance thereof and requests an explanation of the member's rights under this section; and

4 (2) Notifies the retirement system of the member's election hereunder at least thirty days in
5 advance of the retirement date.

6
7 Following receipt of an initial notice of a member's retirement date and request for an explanation,
8 the retirement system shall, at least sixty days in advance of such retirement date, provide the
9 member a written explanation of such member's rights under this section and an estimate of the
10 amount by which the member's regular monthly base pension would be reduced in the event of the
11 member's election of any of the options available to the member under this section.

12 2. (1) A member entitled to make an election under this section may elect to receive a lump
13 sum distribution with the member's initial monthly pension payment under section 86.1540, subject
14 to all the terms of this section. The member may elect the amount of the member's lump sum
15 distribution from one, but not more than one, of the following options for which the member
16 qualifies:

17 (a) A member having one or more years of creditable service after the member's eligible
18 retirement date may elect a lump sum amount equal to twelve times the initial monthly base pension
19 the member would receive if no election were made under this section;

20 (b) A member having two or more years of creditable service after the member's eligible
21 retirement date may elect a lump sum amount equal to twenty-four times the initial monthly base
22 pension the member would receive if no election were made under this section; or

23 (c) A member having three or more years of creditable service after the member's eligible
24 retirement date may elect a lump sum amount equal to thirty-six times the initial monthly base
25 pension the member would receive if no election were made under this section.

26
27 For purposes of this section, "eligible retirement date" for a member shall mean the earliest date on
28 which the member could elect to retire and be entitled to receive a pension under section 86.1540.

29 (2) When a member makes an election to receive a lump sum distribution under this section,
30 the base pension that the member would have received in the absence of an election shall be reduced
31 on an actuarially equivalent basis to reflect the payment of the lump sum distribution, and the
32 reduced base pension shall be the member's base pension thereafter for all purposes relating to base
33 pension amounts under sections 86.1310 to 86.1640, unless the member has also elected an optional
34 benefit permitted under subsection [3] 4 of section 86.1540.

35 (3) If a member electing a lump sum distribution under this section has elected the optional
36 benefit permitted under subsection [3] 4 of section 86.1540, the calculation of the member's pension
37 shall be made in the following order:

38 (a) The amount of the member's normal pension under subdivision (1) of subsection 1 of
39 section 86.1540 shall be reduced if applicable by any reductions required under [subsection]
40 subsections 2 or 3 of section 86.1540;

41 (b) The amount of the pension as determined under paragraph (a) of this subdivision shall be

1 reduced to the actuarially equivalent amount to produce the optional form of benefit described in
2 subdivision (1) of subsection [3] 4 of section 86.1540;

3 (c) The amount of reduced pension as determined under paragraph (b) of this subdivision
4 shall be further reduced as required to produce an actuarially equivalent benefit in the form of the
5 lump sum distribution option elected under this section and a remaining monthly annuity which shall
6 be paid on the basis that the initial annuity for the member's spouse, if such spouse survives the
7 member, shall be the same as the amount being paid the member on this annuity at the member's
8 death, and, subject to cost-of-living adjustments thereafter declared on the spouse's base pension
9 under section 86.1590, shall be paid to such surviving spouse for the lifetime of such spouse without
10 regard to remarriage.

11 3. An election under this section to receive a lump sum distribution and reduced monthly
12 base pension shall be void if the member dies before retirement, in which case amounts due a
13 surviving spouse or other beneficiary of the member shall be determined without regard to such
14 election.

15 86.1590. 1. Provided that the retirement system shall remain actuarially sound, each of the
16 following persons may receive each year, in addition to such person's base pension, a cost-of-living
17 adjustment in an amount not to exceed three percent of such person's base pension during any one
18 year:

19 (1) Every member who is retired and receiving a base pension from this retirement system;
20 and

21 (2) Every surviving spouse who is receiving a base pension from this retirement system.

22 2. Upon the death of a member who has been retired and receiving a pension, and who dies
23 after August 28, 2001, the surviving spouse of such member entitled to receive a base pension under
24 section 86.1610 shall receive an immediate percentage cost-of-living adjustment to his or her base
25 pension equal to the total percentage cost-of-living adjustments received during such member's
26 lifetime under this section, but such adjustment shall not be deemed to change the base pension
27 amount to which subsequent cost-of-living adjustments may be made.

28 3. For purposes of this section, the term "base pension" shall mean:

29 (1) For a member, the pension computed under the provisions of the law as of the date of
30 retirement without regard to cost-of-living adjustments, as adjusted if applicable, for any optional
31 elections made under sections 86.1540 and 86.1580, but in all events not including any supplemental
32 benefit under section 86.1600;

33 (2) For a surviving spouse whose pension is prescribed by section 86.1610, the base pension
34 calculated for such spouse in accordance with the provisions of section 86.1610, including any
35 compensation as a consultant to which such surviving spouse is entitled under said section in lieu of
36 a pension, but not including any supplemental benefit under section 86.1600;

37 (3) For a surviving spouse entitled to the continuation of an optional benefit elected under
38 subsection [3] 4 of section 86.1540, the base pension determined in accordance with subdivision (3)
39 of subsection [3] 4 of section 86.1540.

40 4. The cost-of-living adjustment shall be an increase or decrease computed on the base
41 pension amount by the retirement board in an amount that the board, in its discretion, determines to

be satisfactory, but in no event shall the adjustment be more than three percent or reduce the pension to an amount less than the base pension. In determining and granting the cost-of-living adjustments, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. The retirement board shall provide for such adjustments to be determined once each year and granted on a date or dates to be chosen by the board, and may apply such adjustments in full to members who have retired during the year prior to such adjustments but who have not been retired for one full year and to the surviving spouse of a member who has died during the year prior to such adjustments.

5. The determination of whether the retirement system will remain actuarially sound shall be made at the time any cost-of-living adjustment is granted. If at any time the retirement system ceases to be actuarially sound, pension payments shall continue as adjusted by increases theretofore granted. A member of the retirement board shall have no personal liability for granting increases under this section if that retirement board member in good faith relied and acted upon advice of a qualified actuary that the retirement system would remain actuarially sound.

86.1610. 1. Upon receipt of the proper proofs of death of a member in service for any reason whatsoever, the following amounts shall be payable subject to subsection 4 of this section, and if a pension shall be elected, the initial amount thereof shall be the base pension for such surviving spouse:

(1) If the member has less than five years of creditable service, the member's surviving spouse shall be paid, in one lump sum, the amount of the member's accumulated contributions. If there is no surviving spouse, the member's accumulated contributions shall be paid as provided in subsection 6 of section 86.1420;

(2) If the member has at least five but fewer than twenty years of creditable service, the member's surviving spouse may elect the lump sum settlement in subdivision (1) of this subsection or a pension. Such pension shall be fifty percent of the member's accrued pension at date of death as computed in subdivision (1) of subsection 1 of section 86.1540, commencing as provided in subsection 3 of section 86.1420;

(3) If the member has at least twenty years of creditable service, the member's surviving spouse may elect any one of:

(a) The lump sum settlement in subdivision (1) of this subsection;

(b) The pension as computed in subdivision (2) of this subsection; or

(c) A pension in the monthly amount determined on a joint and survivor's basis from the actuarial value of the member's accrued annuity at date of death;

(4) Any death of a retired member occurring before the first payment of the retirement pension shall be deemed to be a death prior to retirement;

(5) For the surviving spouse of a member who died in service after August 28, 2001, benefits payable under subsection 1 of this section shall continue for the lifetime of such surviving spouse without regard to remarriage.

2. Upon death of a member after retirement who has not elected the optional annuity permitted under subsection [3] 4 of section 86.1540, the surviving spouse shall receive a base

1 pension payable for life, equaling fifty percent of the member's base pension, as of the member's
2 retirement date, subject to the following:

3 (1) No surviving spouse of a member who retires after August 28, 2001, shall be entitled to
4 receive any benefits under sections 86.1310 to 86.1640 unless such spouse was married to the
5 member at the time of the member's retirement; and

6 (2) Any surviving spouse who was married to such a member at the time of the member's
7 retirement shall be entitled to all benefits for surviving spouses under sections 86.1310 to 86.1640
8 for the life of such surviving spouse without regard to remarriage.

9 3. In the case of any member who, prior to August 28, 2001, died in service or retired, the
10 surviving spouse who would qualify for benefits under subsection 1 or 2 of this section but for
11 remarriage, and has not remarried prior to August 28, 2001, but remarries thereafter, shall upon
12 application be appointed by the retirement board as a consultant. For services as such consultant,
13 such surviving spouse shall be compensated in an amount equal to the benefits such spouse would
14 have received under sections 86.1310 to 86.1640 in the absence of such remarriage.

15 4. Any beneficiary of benefits under sections 86.1310 to 86.1640 who becomes the surviving
16 spouse of more than one member shall be paid all benefits due a surviving spouse of that member
17 whose entitlements produce the largest surviving spouse benefits for such beneficiary but shall not be
18 paid surviving spouse benefits as the surviving spouse of more than one member, except that any
19 surviving spouse for whom an election has been made for an optional benefit under subsection [3] 4
20 of section 86.1540 shall be entitled to every optional benefit for which such surviving spouse has so
21 contracted.

22 86.1630. 1. A retirement plan under sections 86.1310 to 86.1640 is a qualified plan under
23 the provisions of applicable federal law. The benefits and conditions of a retirement plan under
24 sections 86.1310 to 86.1640 shall always be adjusted to ensure that the tax-exempt status is
25 maintained.

26 2. The retirement board shall administer this retirement system in such manner as to retain at
27 all times qualified status under Section 401(a) of the Internal Revenue Code.

28 3. The retirement board shall hold in trust the assets of the retirement system for the
29 exclusive benefit of the members and their beneficiaries and for defraying reasonable administrative
30 expenses of the system. No part of such assets shall, at any time prior to the satisfaction of all
31 liabilities with respect to members and their beneficiaries, be used for or diverted to any purpose
32 other than such exclusive benefit or to any purpose inconsistent with sections 86.1310 to 86.1640.

33 4. A member's benefit shall be one hundred percent vested and nonforfeitable upon the
34 member's attainment of normal retirement age, which shall be the earlier of:

35 (1) The attaining of the age of sixty-five or the member's tenth anniversary of employment,
36 whichever is later for any Tier I member, or the attaining of the age of sixty-seven or the member's
37 twentieth anniversary of employment, whichever is later for any Tier II member;

38 (2) For any Tier I member when the total sum of age and years of creditable service equals
39 or exceeds eighty, or for any Tier II member when the total sum of age and years of creditable
40 service equals or exceeds eighty-five; or

41 (3) To the extent funded, upon the termination of the system established under sections

1 86.1310 to 86.1640 or any partial termination which affects the member or any complete
2 discontinuance of contributions by the city to the system.

3
4 Amounts representing forfeited nonvested benefits of terminated members shall not be used to
5 increase benefits payable from the system but may be used to reduce contributions for future plan
6 years.

7 5. Distribution of benefits shall begin not later than April first of the year following the later
8 of the calendar year during which the member becomes seventy and one-half years of age or the
9 calendar year in which the member retires, and shall otherwise conform to Section 401(a)(9) of the
10 Internal Revenue Code.

11 6. A member or beneficiary of a member shall not accrue a service retirement annuity,
12 disability retirement annuity, death benefit, whether death occurs in the line of duty or otherwise, or
13 any other benefit under sections 86.1310 to 86.1640 in excess of the benefit limits applicable to the
14 fund under Section 415 of the Internal Revenue Code. The retirement board shall reduce the amount
15 of any benefit that exceeds the limits of this section by the amount of the excess. If the total benefits
16 under the retirement system and the benefits and contributions to which any member is entitled
17 under any other qualified plan or plans maintained by the board of police commissioners that
18 employs the member would otherwise exceed the applicable limits under Section 415 of the Internal
19 Revenue Code, the benefits the member would otherwise receive from the retirement system are
20 reduced to the extent necessary to enable the benefits to comply with Section 415 of the Internal
21 Revenue Code.

22 7. The total salary taken into account for any purpose for any member of the retirement
23 system shall not exceed two hundred thousand dollars per year, subject to periodic adjustments in
24 accordance with guidelines provided by the United States Secretary of the Treasury and may not
25 exceed such other limits as may be applicable at any given time under Section 401(a)(17) of the
26 Internal Revenue Code.

27 8. If the amount of any benefit is determined on the basis of actuarial assumptions that are
28 not specifically set forth for that purpose in sections 86.1310 to 86.1640, the actuarial assumptions to
29 be used are those earnings and mortality assumptions used on the date of the determination by the
30 retirement system's actuary and approved by the retirement board. The actuarial assumptions used at
31 any particular time shall be attached as an addendum to a copy of the retirement system's statute
32 maintained by the retirement board and shall be treated for all purposes as part of sections 86.1310 to
33 86.1640. The actuarial assumptions may be changed by the retirement system's actuary annually if
34 approved by the retirement board, but a change in actuarial assumptions shall not result in any
35 decrease in benefits accrued as of the effective date of the change.

36 9. Any member or beneficiary who is entitled to receive any distribution that is an eligible
37 rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to
38 have that distribution transferred directly to another eligible retirement plan of the member's or
39 beneficiary's choice upon providing direction to the secretary of the retirement system regarding the
40 transfer in accordance with procedures established by the retirement board.

41 10. For all distributions made after December 31, 2001:

1 (1) For the purposes of subsection 9 of this section, an eligible retirement plan shall also
2 mean an annuity described in Section 403(b) of the Internal Revenue Code and an eligible plan under
3 Section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a
4 state, or any agency or instrumentality of a state or political subdivision of a state and which agrees
5 to separately account for amounts transferred into such plan from the retirement system. The
6 definition for eligible retirement plan shall also apply in the case of a distribution to a surviving
7 spouse or to a spouse or former spouse who is the alternate payee under a qualified domestic
8 relations order, as defined in Section 414(p) of the Internal Revenue Code; and

9 (2) For the purposes of subsection 9 of this section, a portion of a distribution shall not fail to
10 be an eligible rollover distribution merely because the portion consists of after-tax employee
11 contributions which are not includable in gross income. However, such portion may be paid only to
12 an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal
13 Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of
14 the Internal Revenue Code that agrees to separately account for amounts so transferred, including
15 separately accounting for the portion of such distribution that is includable in gross income and the
16 portion of such distribution that is not so includable."; and

17
18 Further amend said bill by amending the title, enacting clause, and intersectional references
19 accordingly.
