13 division shall provide such application forms to applicants whose preliminary income information  
14 indicates that they are ineligible for aid to families with dependent children. Applicants for MO  
15 HealthNet benefits under subdivision (12), (13) or (14) of this subsection shall be informed of the aid  
16 to families with dependent children program and that they are entitled to apply for such benefits.

23 but not limited to salaries, benefits, travel, training, telephone, supplies, and equipment of such  
24 eligibility specialists. The division may provide a health care provider with a part-time or temporary  
25 eligibility specialist at the site of a health care provider if the health care provider requests the  
26 placement of such an eligibility specialist and reimburses the division for the expenses, including but  
27 not limited to the salary, benefits, travel, training, telephone, supplies, and equipment, of such an  
28 eligibility specialist. The division may seek to employ such eligibility specialists who are otherwise  
29 qualified for such positions and who are current or former welfare participants. The division may  
30 consider training such current or former welfare participants as eligibility specialists for this  
31 program;

37 covered service. To the greatest extent possible, and in compliance with federal law and regulations,  
38 the department of health and senior services shall provide case management services to pregnant

2 and the department of health and senior services shall mutually coordinate all services for pregnant  
3 women and children with the crippled children's program, the prevention of intellectual disability  
4 and developmental disability program and the prenatal care program administered by the department  
5 of health and senior services. The department of social services shall by regulation establish the  
6 methodology for reimbursement for case management services provided by the department of health  
7 and senior services. For purposes of this section, the term "case management" shall mean those  
8 activities of local public health personnel to identify prospective MO HealthNet-eligible high-risk  
9 mothers and enroll them in the state's MO HealthNet program, refer them to local physicians or local  
10 health departments who provide prenatal care under physician protocol and who participate in the  
11 MO HealthNet program for prenatal care and to ensure that said high-risk mothers receive support  
12 from all private and public programs for which they are eligible and shall not include involvement in  
13 any MO HealthNet prepaid, case-managed programs;

14 (22) By January 1, 1988, the department of social services and the department of health and  
15 senior services shall study all significant aspects of presumptive eligibility for pregnant women and

24 1396a(f), or less restrictive methodologies as contained in the MO HealthNet state plan as of January  
25 1, 2005; except that, on or after July 1, 2005, less restrictive income methodologies, as authorized in  
26 42 U.S.C. Section 1396a(r)(2), may be used to change the income limit if authorized by annual  
27 appropriation;

29 eligibility standards in effect December 31, 1973, as authorized by 42 U.S.C. Section 1396a(f), or  
30 less restrictive methodologies as contained in the MO HealthNet state plan as of January 1, 2005,  
31 except that less restrictive income methodologies, as authorized in 42 U.S.C. Section 1396a(r)(2),  
32 shall be used to raise the income limit to one hundred percent of the federal poverty level;

36 1, 2005; except that, on or after July 1, 2005, less restrictive income methodologies, as authorized in  
37 42 U.S.C. Section 1396a(r)(2), may be used to change the income limit if authorized by annual  
38 appropriations. Eligibility standards for permanent and total disability benefits shall not be limited  
39 by age;

7 (b) Are not eligible for coverage under another mandatory coverage group; and

8 (c) Were covered by Medicaid while they were in foster care.

9 2. Rules and regulations to implement this section shall be promulgated in accordance with  
10 chapter 536. Any rule or portion of a rule, as that term is defined in section 536.010, that is created  
11 under the authority delegated in this section shall become effective only if it complies with and is  
12 subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and  
13 chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to  
14 chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently  
15 held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after  
16 August 28, 2002, shall be invalid and void.

25 becomes ineligible for such aid, because of hours of employment or income from employment of the  
26 caretaker relative, shall remain eligible for MO HealthNet benefits for six calendar months following  
27 the month of such ineligibility as long as such family includes a child as provided in 42 U.S.C.  
28 1396r-6. Each family which has received such medical assistance during the entire six-month period

35 medical assistance will be made available to him or her for care and services furnished in or after the  
36 third month before the month in which he made application for such assistance if such individual  
37 was, or upon application would have been, eligible for such assistance at the time such care and  
38 services were furnished; provided, further, that such medical expenses remain unpaid.

39 5. The department of social services may apply to the federal Department of Health and  
40 Human Services for a MO HealthNet waiver amendment to the Section 1115 demonstration waiver  
41 or for any additional MO HealthNet waivers necessary not to exceed one million dollars in additional

31 individual, or through an individual health insurance policy that includes coverage for the unborn  
32 child when such person needs assistance in paying such premiums, co-payments, coinsurance, or  
33 deductibles;

34 (3) A combination of direct coverage when the unborn child is first enrolled and premium

7 maternity homes as defined in section 135.600, pregnancy resource centers as defined in section

9 mothers. The department shall consider allowing such agencies and programs to assist in the  
10 enrollment of unborn children in the program and in making determinations about presumptive  
11 eligibility and verification of the pregnancy.

12 9. Within sixty days after the effective date of this section, the department shall submit a  
13 state plan amendment or seek any necessary waivers from the federal Department of Health and  
14 Human Services requesting approval for the show-me healthy babies program.

15 10. At least annually, the department shall prepare and submit a report to the governor, the  
16 speaker of the house of representatives, and the president pro tempore of the senate analyzing and  
17 projecting the cost savings and benefits, if any, to the state, counties, local communities, school  
18 districts, law enforcement agencies, correctional centers, health care providers, employers, other  
19 public and private entities, and persons by enrolling unborn children in the show-me healthy babies

26 organizations, group or individual health insurance providers, premium assistance, or through other

28 (3) The change in the proportion of unborn children who receive care in the first trimester of  
29 pregnancy due to a lack of waiting periods, by allowing presumptive eligibility, or by removal of  
30 other barriers, and any resulting or projected decrease in health problems and other problems for  
31 unborn children and women throughout pregnancy; at labor, delivery, and birth; and during infancy  
32 and childhood;

33 (4) The change in healthy behaviors by pregnant women, such as the cessation of the use of

35 and long-term decrease in birth defects; poor motor skills; vision, speech, and hearing problems;  
36 breathing and respiratory problems; feeding and digestive problems; and other physical, mental,  
37 educational, and behavioral problems; and

9 3. The department shall implement an automated process to ensure applicants applying for  
10 benefit programs are eligible for such programs. The automated process shall be designed to  
11 periodically review current beneficiaries to ensure that they remain eligible for benefits they are  
12 receiving. The system shall check applicant and recipient information against multiple sources of  
13 information through an automated process.

14 4. (1) As soon as practicable upon receipt and approval of all necessary waivers and state  
15 plan amendments, but in no event later than one hundred eighty days after receipt and approval of  
16 such waivers and state plan amendments, the director of the department shall notify the revisor of  
17 statutes, and individuals who meet the following qualifications shall be eligible for alternative

27 equivalent net income standard except the household income may be reduced by a dollar amount  
28 equivalent to five percent of the federal poverty level for the applicable family size.

29 (2) The department shall immediately seek any necessary waivers from the federal  
30 Department of Health and Human Services to implement the provisions of this subsection. The  
31 waivers shall:

32 (a) Promote healthy behavior and allow reasonable requirements that patients take  
33 ownership of their health care by seeking early preventive care in appropriate settings, including no  
34 co-payments for preventive care services;

35 (b) Require personal responsibility in the payment of health care by establishing appropriate  
36 co-payments based on family income that shall discourage the use of emergency department visits  
37 for non-emergent health situations and promote responsible use of other health care services;

38 (c) Promote the adoption of healthier personal habits including limiting tobacco use or  
39 behaviors that lead to obesity;

40 (d) Allow recipients to receive an annual cash incentive if federal financial participation is  
41 obtained for such an incentive, or a cash equivalent if not, to promote responsible behavior and

1 encourage efficient use of health care services;

2 (e) Allow health plans to offer a health savings account option; and

3 (f) Include a request for an enhanced federal funding rate consistent with subsection 14 of  
4 this section for newly eligible participants.

5 (3) If such waivers, state plan amendments, and enhanced federal funding rate are not  
6 granted by the federal government, the provisions of this subsection shall be null and void.

7 5. Except for those individuals who meet the definition of medically frail, individuals  
8 eligible for MO HealthNet benefits under subsection 4 of this section shall receive only an  
9 alternative benefit plan. Notwithstanding the provisions of chapter 536, the MO HealthNet division  
10 shall promulgate regulations to be effective upon implementation of subsection 4 of this section that  
11 provide an alternative benefit plan that complies with the requirements of federal law and is subject  
12 to limitations.

13 6. The department shall require cost sharing to the maximum extent allowed by law  
14 including, but not limited to, cost sharing of no less than one percent of the individual's income as  
15 converted to the MAGI equivalent net income standard if the individual fails to participate in healthy  
16 behaviors as specified by the department. Cost sharing shall not occur during the individual's first  
17 year of participation in MO HealthNet. Any use of an emergency department by an individual for a  
18 non-emergent purpose and that does not result in a hospital admission shall result in cost sharing by  
19 the individual under this subsection. In order to collect the required cost sharing under this  
20 subsection, the department may garnish the individual's state income tax returns through any method  
21 available to the department.

22 7. The department shall provide premium subsidy and other cost supports for individuals  
23 eligible for MO HealthNet under subsections 2 and 4 of this section to enroll in employer-provided  
24 health plans or other private health plans based on cost-effective principles determined by the  
25 department.

26 8. Upon implementation of subsection 4 of this section, the department shall obtain health  
27 care coverage for persons who have an income between one hundred percent and one hundred  
28 thirty-three percent of the federal poverty level for the applicable family size, for the applicable year  
29 as converted to the MAGI equivalent net income standard, who meet all other requirements of  
30 subsection 4 of this section and have not been determined to be medically frail by the department,  
31 through a health care exchange operating in this state, whether federally facilitated, state based, or  
32 operated on a partnership basis, or an employer. The department shall ensure the participants receive  
33 the minimum services required to ensure federal reimbursement at the percentages specified in  
34 Section 2001 of Public Law 111-148. The department shall require cost sharing to the maximum  
35 extent allowed by law.

36 9. Upon implementation of subsection 4 of this section, all persons who have an income up  
37 to one hundred thirty-three percent of the federal poverty level for the applicable family size, for the  
38 applicable year as converted to the MAGI equivalent net income standard, who are eligible for MO  
39 HealthNet benefits under subsection 4 of this section who meet the definition of medically frail shall  
40 receive all benefits they are eligible to receive under sections 208.152, 208.900, 208.903, 208.909,  
41 and 208.930.

10. The department shall establish a screening process in conjunction with the department of mental health and the department of health and senior services for determining whether an individual is medically frail and shall enroll all eligible individuals who meet the definition of medically frail and whose care management would benefit from being assigned a health home in the health home program or other care coordination as established by the department. Any eligible individual may opt out of the health home program.

11. For individuals who meet the definition of medically frail, the department shall develop an incentive program to promote the adoption of healthier personal habits including limiting tobacco use or behaviors that lead to obesity and for those individuals who utilize the health home program in subsection 11 of this section.

12. The department or appropriate divisions of the department shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as the term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

[4.] 13. The department shall submit such state plan amendments and waivers to the Centers for Medicare and Medicaid Services of the federal Department of Health and Human Services as the department determines are necessary to implement the provisions of this section. The department shall request of the federal government an enhanced federal funding rate for persons newly eligible under subsection 4 of this section whereby the federal government agrees to pay the percentages specified in Section 2001 of P.L. 111-148, as that section existed on March 23, 2010. The provisions of subsections 4 to 12 of this section shall not be implemented unless such waivers and enhanced federal funding rates are granted by the federal government.

14. If at any time the director receives notice that the federal funds at the disposal of the state for payments of money benefits to or on behalf of any persons under subsection 4 of this section shall at any time become less than ninety percent of the funds necessary to cover the cost of benefits provided to MO HealthNet participants eligible for coverage under subsections 4, 5, 8, 9, 10, and 12 of this section or are not appropriated to pay the percentages specified in Section 2001 of Public Law 111-148, as that section existed on March 23, 2010, subsections 4 to 12 of this section shall no longer be effective for the individuals whose benefits are no longer matchable at the specified percentages. The date benefits cease shall be stated in a notice sent to the affected individuals.

15. The department may seek and apply for grants to educate MO HealthNet recipients how to:

- (1) Increase their overall health and well-being;
- (2) Improve health outcomes; and
- (3) Properly utilize health care providers and services.

208.997. 1. The MO HealthNet division shall develop and implement the "Health Care Homes Program" as a provider-directed care coordination program for MO HealthNet recipients who

are not enrolled in a prepaid MO HealthNet benefits option and who are receiving services on a fee-for-service basis or are otherwise identified by the department. The health care homes program shall provide payment to primary care clinics, community mental health centers, and other appropriate providers for care coordination for individuals who are deemed medically frail. Clinics shall meet certain criteria including, but not limited to, the following:

- (1) The capacity to develop care plans;
- (2) A dedicated care coordinator;
- (3) An adequate number of clients, evaluation mechanisms, and quality improvement processes to qualify for reimbursement; and
- (4) The capability to maintain and use a disease registry.

2. For purposes of this section, "primary care clinic" means a medical clinic designated as the patient's first point of contact for medical care, available twenty-four hours a day, seven days a week, that provides or arranges the patient's comprehensive health care needs and provides overall integration, coordination, and continuity over time and referrals for specialty care.

3. The department may designate that the health care homes program be administered through an organization with a statewide primary care presence, experience with Medicaid population health management, and an established health care homes outcomes monitoring and improvement system.

4. This section shall be implemented in such a way that it does not conflict with federal requirements for health care home participation by MO HealthNet participants.

5. The department or appropriate divisions of the department may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall be invalid and void.

6. Nothing in this section shall be construed to limit the department's ability to create health care homes for participants in a managed care plan.

208.998. 1. Except for individuals who meet the definition of medically frail, individuals who qualify for coverage under subsections 2 and 4 of section 208.991 shall receive covered services through health plans offered by managed care entities which are authorized by the department. Health plans authorized by the department:

(1) Shall resemble commercially available health plans while complying with federal Medicaid requirements as authorized by federal law or through a federal waiver and may include risk-bearing accountable care organizations which provide covered services to individuals who qualify for coverage under subsection 4 of section 208.991 and managed care organizations paid on a capitated basis which provide covered services to individuals who qualify for coverage under subsections 2 and 4 of section 208.991;

(2) Shall promote, to the greatest extent possible, the opportunity for children and their

1 parents to be covered under the same plan;

2 (3) Shall offer plans statewide;

3 (4) Shall include cost sharing for outpatient services to the maximum extent allowed by  
4 federal law;

5 (5) May include other co-payments and provide incentives that encourage and reward the  
6 prudent use of the health benefit provided;

7 (6) Shall encourage access to care through provider rates that include pay-for-performance  
8 and are comparable to commercial rates. The department of social services shall determine  
9 pay-for-performance provisions that managed care organizations shall execute and shall provide  
10 incentives for managed care organizations that perform well;

11 (7) Shall provide incentives, including shared risk and savings, to health plans and providers  
12 to encourage cost-effective delivery of care;

13 (8) Shall provide incentive programs for participants to encourage healthy behaviors and  
14 promote the adoption of healthier personal habits including limiting tobacco use or behaviors that  
15 lead to obesity;

16 (9) May provide multiple plan options and reward participants for choosing a low-cost plan;

17 (10) Shall include the services of community mental health centers; and

18 (11) Shall include the services of health providers as defined in 42 U.S.C. Section  
19 1396d(1)(1) and (2) and meet the payment requirements for such health providers as provided in 42  
20 U.S.C. Sections 1396a(a)(15) and 1396a(bb).

21 2. The department may designate that certain health care services be excluded from such  
22 health plans if it is determined cost effective by the department.

23 3. (1) The department may accept regional proposals as an additional option for  
24 beneficiaries.

25 (2) The department shall advance the development of systems of care for medically complex  
26 children who are recipients of MO HealthNet benefits by accepting cost-effective regional proposals  
27 from and contracting with appropriate pediatric care networks, pediatric centers for excellence, and  
28 medical homes for children to provide MO HealthNet benefits when the department determines it is  
29 cost effective to do so.

30 (3) The provisions of subsection 1 of this section shall not apply to this subsection.

31 4. The department shall establish, in collaboration with plans and providers, uniform  
32 utilization review protocols to be used by all authorized health plans.

33 5. Any managed care organization that enters into a contract with the state to provide  
34 managed care plans shall be required to fulfill the terms of the contract and provide such plans for at  
35 least twelve months, or longer if the contract so provides. The state shall not increase the  
36 reimbursement rate provided to the managed care organization during the contract period above the  
37 rate included in the contract. If the managed care organization breaches the contract, the state shall  
38 be entitled to bring an action against the managed care organization for any remedy allowed by law  
39 or equity and shall also recover any and all damages provided by law including liquidated damages  
40 in an amount determined by the department during the bidding process. Nothing in this subsection  
41 shall be construed to preclude the department or the state of Missouri from terminating the contract

as specified in the terms of the contract including for breach of contract, lack of appropriated funds, or exercising any remedies for breach as may be provided in the contract.

6. (1) Participants enrolling in managed care plans under this section shall have the ability to choose their plan. In the enrollment process participants shall be provided a list of all plans available ranked by the relative actuarial value of each plan. Each participant shall be informed in the enrollment process that he or she will be eligible to receive a portion of the amount saved by Missouri taxpayers if he or she chooses a lower cost plan offered in his or her region. The portion received by a participant shall be determined by the department according to the department's best judgment as to the portion which will bring the maximum savings to Missouri taxpayers.

(2) If a participant fails or refuses to choose a plan as set forth in subdivision (1) of this subsection, the department shall determine rules for auto-assignment, which shall include incentives for low-cost bids and improved health outcomes as determined by the department. Auto-enrolled participants shall be assigned to the highest performing managed care organization.

7. This section shall not be construed to require the department to terminate any existing managed care contract or to extend any managed care contract.

8. All MO HealthNet plans under this section shall provide coverage for the following services unless they are specifically excluded under subsection 2 of this section:

(1) Ambulatory patient services;

(2) Emergency services;

(3) Hospitalization;

(4) Maternity and newborn care;

(5) Mental health and substance abuse treatment, including behavioral health treatment;

(6) Prescription drugs;

(7) Rehabilitative and habilitative services and devices;

(8) Laboratory services;

(9) Preventive and wellness care, and chronic disease management;

(10) Pediatric services, including oral and vision care; and

(11) Any other services required by federal law.

9. No MO HealthNet plan or program shall provide coverage for an abortion unless a physician certifies in writing to the MO HealthNet agency that, in the physician's professional judgment, the life of the mother would be endangered if the fetus were carried to term.

10. The MO HealthNet program shall require managed care plans under this section to provide a high deductible health plan option for uninsured adults nineteen years of age or older and under sixty-five years of age with incomes of less than one hundred percent of the federal poverty level as converted to the MAGI equivalent net income standard who are enrolled in managed care plans under this section. The high deductible health plan shall include:

(1) A minimum deductible of one thousand dollars and upon meeting the deductible, coverage for benefits as specified by rule of the department;

(2) An account, funded by the department, of at least one thousand dollars per adult to pay medical costs for the initial deductible in the form of a prepaid card;

(3) Preventive care, as defined by the department by rule, that is not subject to the deductible

 2 subsection;

3 (4) A basic benefits package if annual medical costs exceed one thousand dollars;

4 (5) Primary care provider visits, as defined by the department by rule, that are not subject to  
 5 the deductible and do not require a payment of moneys from the account described in subdivision (2)  
 6 of this subsection;

7 (6) As soon as practicable, the establishment and maintenance of a record-keeping system  
 8 for each health care visit or service received by recipients under this subsection. The plan shall  
 9 require that the recipient's prepaid card number be entered or electronic strip be swiped by the health  
 10 care provider for purposes of maintaining a record of every health care visit or service received by  
 11 the recipient from such provider, regardless of any balance on the recipient's card. Such information  
 12 shall include only the date, provider name, and general description of the visit or service provided.  
 13 The plan shall maintain a complete history of all health care visits and services for which the  
 14 recipient's prepaid card is entered or swiped in accordance with this subdivision. If required under  
 15 the federal Health Insurance Portability and Accountability Act (HIPAA) or other relevant state or  
 16 federal law or regulation, a recipient shall, as a condition of participation in the prepaid card  
 17 incentive, be required to provide a written waiver for disclosure of any information required under  
 18 this subdivision;

19 (7) The determination of a proportion of the amount left in a participant's account described  
 20 in subdivision (2) of this subsection at the end of the plan year, which shall be paid to the participant  
 21 for saving taxpayer money. The amount and method of payment shall be determined by the  
 22 department; and

23 (8) The determination of a proportion of a participant's account described in subdivision (2)  
 24 of this subsection which shall be used to subsidize premiums to facilitate a participant's transition  
 25 from health coverage under MO HealthNet to private health insurance based on cost-effective  
 26 principles determined by the department.

27 11. The department shall require managed care plans under this section to offer an incentive  
 28 program in which all MO HealthNet participants with chronic conditions, as specified by the  
 29 department, who are enrolled in managed care plans under this section shall enroll. Participants who  
 30 obtain specified primary care and preventive services and who participate or refrain from  
 31 participation in specified activities to improve the overall health of the recipient shall be eligible to  
 32 receive an annual cash payment if federal financial participation is obtained for such a payment, or a  
 33 cash equivalent if not, for successful completion of the program. The department shall establish, by  
 34 rule, the specific primary care and preventive services, activities to be included in the incentive  
 35 program, and the amount of any annual payments to recipients.

36 12. A MO HealthNet recipient shall be eligible for participation in only one of either the  
 37 high deductible health plan under subsection 11 of this section or the incentive program under  
 38 subsection 12 of this section.

39 13. No cash payments, incentives, or credits paid to or on behalf of a MO HealthNet  
 40 participant under a program established by the department under this section shall be deemed to be  
 41 income to the participant in any means-tested benefit program unless otherwise specifically required

1 by law or rule of the department.

2 14. Managed care entities shall inform participants who choose the high deductible health  
 3 plan under subsection 11 of this section that the participant may lose his or her incentive payment  
 4 under subdivision (7) of subsection 11 of this section if the participant utilizes visits to the  
 5 emergency department for non-emergent purposes. Such information shall be included on every  
 6 electronic and paper correspondence between the managed care plan and the participant.

7 15. The department shall seek all necessary waivers and state plan amendments from the  
 8 federal Department of Health and Human Services necessary to implement the provisions of this  
 9 section. The provisions of this section shall not be implemented unless such waivers and state plan  
 10 amendments are approved. If this section is approved in part by the federal government, the  
 11 department is authorized to proceed on those sections for which approval has been granted; except  
 12 that, any increase in eligibility shall be contingent upon the receipt of all necessary waivers and state  
 13 plan amendments. The provisions of this section shall not be implemented until eligibility of persons  
 14 set out in subsection 4 of section 208.991 has been approved by the federal Department of Health  
 15 and Human Services and has been implemented by the department. However, nothing shall prevent  
 16 the department from expanding managed care for populations under other granted authority.

17 16. The department may promulgate rules to implement the provisions of this section. Any  
 18 rule or portion of a rule, as the term is defined in section 536.010, that is created under the authority  
 19 delegated in this section shall become effective only if it complies with and is subject to all of the  
 20 provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are  
 21 nonseverable and if any of the powers vested with the general assembly under chapter 536 to review,  
 22 to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional,  
 23 then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall  
 24 be invalid and void."; and

25  
 26 Further amend said bill, Page 11, Section 208.999, Line 115, by inserting after all of said section and  
 27 line the following:

28  
 29 "208.1000. Subject to appropriations, the department of social services shall develop  
 30 incentive programs to encourage the construction and operation of urgent care clinics which operate  
 31 outside normal business hours and are in or adjoining emergency department facilities which receive  
 32 a high proportion of patients who are participating in MO HealthNet to the extent that the incentives  
 33 are eligible for federal matching funds.

34 208.1001. 1. Notwithstanding any other provision of law to the contrary, beginning July 1,  
 35 2015, any MO HealthNet recipient who elects to receive medical coverage through a private health  
 36 insurance plan instead of through the MO HealthNet program shall be eligible for a private insurance  
 37 premium subsidy to assist the recipient in paying the costs of such private insurance if it is  
 38 determined to be cost effective by the department of social services. The subsidy shall be provided  
 39 on a sliding scale based on income with a graduated reduction in subsidy over a period of time not to  
 40 exceed two years.

41 2. Nothing in this section shall be construed as being part of a MO HealthNet program, plan,

1 or benefit, and this section shall specifically not apply to or impact premium subsidies or other cost  
 2 supports enrolling MO HealthNet participants in employer-provided health plans, other private  
 3 health plans, or plans purchased through a health care exchange under subsection 9 of section  
 4 208.991.

5 3. The department may promulgate rules to implement the provisions of this section. Any  
 6 rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority  
 7 delegated in this section shall become effective only if it complies with and is subject to all of the  
 8 provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are  
 9 nonseverable and if any of the powers vested with the general assembly under chapter 536 to review,  
 10 to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional,  
 11 then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall  
 12 be invalid and void.

13 208.1002. 1. The department of social services shall develop regional care coordination  
 14 models among networks of health care providers to meet the needs of and reduce the costs incurred  
 15 by MO HealthNet beneficiaries who frequently or inefficiently utilize emergency department  
 16 services. The objectives of such models shall include, but not be limited to:

17 (1) Reducing emergency department utilization;

18 (2) Reducing unnecessary utilization of diagnostic services, pharmacy costs, inpatient  
 19 encounters, and admissions;

20 (3) Increasing quality and coordination of care through leveraging community resources and  
 21 care management;

22 (4) Improving the patient experience and quality of care; and

23 (5) Achieving net savings of ten to thirteen percent over a three-year period for MO  
 24 HealthNet participants.

25 2. The regional care coordination models shall require the development of an algorithm that  
 26 uses analytical approaches to identify prospective participants who have a history of presenting in an  
 27 emergency department for care on at least ten occasions over a twelve-month period. Prospective  
 28 participants also shall be screened based on claims and other available data to predict the likely value  
 29 of intense care coordination to reduce costs and improve care. The regional care coordination  
 30 models shall incorporate the following strategies:

31 (1) Utilization of a multi-disciplinary, team-based approach that adapts health care and  
 32 community resources to the participant's individual needs;

33 (2) Utilization of resources and sharing of information among the care management team to  
 34 develop a comprehensive care management program based on social, clinical, and behavioral  
 35 assessments. The care management team shall include medical direction from a physician supported  
 36 by additional health care professionals and community resources as necessary; and

37 (3) Creation of a sustainable program in coordination with the regional networks of health  
 38 care providers whereby the department measures and tracks baseline expenditures on a per-member,  
 39 per-month basis for the target population. The department shall develop a shared savings funding  
 40 model that may be adapted to a wider array of health payment models.

41 3. The department also shall develop additional innovative programs that seek to address the

1 cost and quality of care for individuals who disproportionately utilize emergency departments for  
2 care. Health care providers participating in the regional care coordination models shall be  
3 encouraged to include uninsured individuals who frequently utilize the emergency department for  
4 care in this program to the greatest extent possible."; and
