FISCAL ANALYSIS

ASSUMPTION

§ 191.761 - Establishment of cord blood collection sites:

Officials from the **Department of Health and Senior Services (DHSS)** state section 191.761.1 will require the DHSS to use a courier service to transport collected, donated umbilical cord blood samples to the Saint Louis Cord Blood Bank at Cardinal Glennon Children's Medical Center.

DHSS has an existing courier system that is utilized to collect newborn screening specimens. Currently this system collects newborn screening specimens from 46 birthing hospitals five days per week.

In order for the existing courier service to be utilized for the transport of cord blood, several modifications will be required. Transport of cord blood requires temperature controlled transportation, adherence to specific delivery time-frames, and chain of custody protocols. Cord blood specimens will not remain viable for medical usage if these requirements are not strictly adhered to. Costs associated with the required modifications and storage of specimens are unknown, but anticipated to be significant. Total costs associated to implement this service will be unknown until after the Department has completed the state procurement bid process for contracted services.

DHSS assumes it would be required to provide courier service to the 22 birthing centers that are designated and trained to provide cord blood to the St. Louis Cord Blood Bank. Seventeen of these birthing centers already exist in a DHSS courier system that operates Monday through Friday. Courier services would need to be expanded to seven days per week for these 17 birthing centers. In addition, courier services for seven days per week for the five new locations would be needed. The estimated cost associated with adding weekend courier pick up to the existing 17 hospitals is \$26,100; the cost for adding five new locations for seven days a week is \$22,805.

No costs for FY 15 are anticipated as the provisions of this proposal are not effective until July 1, 2015. The DHSS assumes the total cost of this proposal to the General Revenue Fund will be unknown, greater than \$50,127 for FY 16 and unknown, greater than \$51,381 for FY 17.

Officials from the **Office of Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal

ASSUMPTION (continued)

impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes this is a small amount and does not expect that additional funding would be required to meet these costs. However, it is also recognized that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain within its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Joint Committee on Administrative Rules (JCAR)** state the legislation is not anticipated to cause a fiscal impact to JCAR beyond its current appropriation.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This proposal provides, beginning July 1, 2015, the Department of Health and Senior Services will provide a courier service to transport collected, donated umbilical cord blood samples to a nonprofit umbilical cord blood bank in the City of St. Louis. The collection sites are only to be those facilities designated and trained by the blood bank in the collection and handling of umbilical cord blood specimens.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
